THE TIME TO ACT!

Perhaps no paper has ever had ful array of opponents. Prompted by revenge and passion and prejudice these men, headed by Attorney-General Wickersham, (the Morgan lawyer and partner of Diaz) with unlimited resources at their command, have decreed that this paper of the Appeal that shall be a warning. A budding tyranny always first throttles a free press. Then the work of enslavement of the toilers is easy.

But there is another side to the picture. No paper published in all the world has had back of it so many determined men and women who are willing to make any sacrifice to the end that the constitutional guarantee of a free press shall be handed down to future generations unimpaired.
Plutocracy and the People meet in

this contest face to face.

The lines of battle are clearly drawn. Your only weapon is publicity. After all, the Great American Public believes in fair play—even if it does not believe in Socialism.

Thousands, yes, millions may be in the Appeal case are laid before them. This is your work. I hope you will read Sinclair's ringing words on the front page of this issue, and join the thousands of others who will pledge themselves to send in ONE subscriber each week so long as this government persecution of the Appeal continues. Will you do this? It's not much we are asking from our thirty thousand loyal members of the Appeal Army. But think what it would do for the Appeal and for So-cialism and for YOU!

One subscriber each week from 30,000 Appeal Army workers! You can get ONE subscriber today

Has the Imperial Purple so enswathed the sacred person of our chief hired man that to picture him becomes a crime for which imprisonment is the penalty? This was the method of Imperial Rome, and is the method of Imperial Germany and Russia. Are we Americans to be subjected to the tyranny that our forefathers fought to free us from? This government appoints free us from? This government appoints rulers like Rome appointed Herod to govern outlying conquered nations, and when one of the conquered dares to raise his voice in protest he is jailed to the conquered dares to raise his voice in protest he is jailed to the conquered dares to raise his voice in protest he is jailed to the conquered dares to the conquere who act as raise his voice in protest he is jailed and sent up by his enemies, who act as judge, prosecutor and juror. The American sugar trust, caught with the goods on, confessed that it had smuggled \$64,000,000 worth of sugar into this country and paid the government over \$2,000,000 in settlement of the tariff duties it had evaded. But listen. In all cases where smugrling is detected the goods are con-fiscated and the smuggler punished. No, not in all cases. Not when great corporations are the criminals. The officers of the sugar trust are not punshed, after they had pleaded guilty, nor is the sugar confiscated. The laws are for the punishment of little offenders not for the barons who own and run this government and make appointments of their henchmen to federal positions. You great American citizens know about as much about what your government is doing as cats know about the science of biology. Yes, you are very intelligent voters! You are the cream of all earthly wisdom, you are! And the sugar trust smiles and scoops fifty millions a year out of your pay checks in the price of sugar—and you don't even know it when it is shown

The more rapidly the trusts develop, the stronger and more extortionate they become, the sooner will their real character be understood and the sooner will they be taken over by the public and operated for the benefit of the whole people. All talk of con-trolling the trusts is more buncombe.

The employers are always pleading for "Free Industrial America," meaning that they should be free from labor union influences. But how can indus tries be free if the employers own them? Free industries would always be open to those who desire to work What the employers demand is a closed industry—one that they can rule as suits them. And that is just what the work people demand for themselves. Thus there is and ever will be an eter If you wait for some one else to free O, if they could see them as they really nal conflict between these opposing in-terests—a class struggle. If industries Under Socialism the workers will own all the industries; they will only need to qualify themselves in public training schools for any given industry, and they will then be free to work in this industry any time they desire, and get the full equivalent of what their skill and labor produces. They will not have to trainp and bee and starve and strike. Such things will be unknown when industries are free. Free industries are the last things the employers want. They use the phrase to deceive the thoughtless dupes who vote to have private ownership of industries. Socialism will make industries the equal inheritance of all the people. It will inheritance of all the people. It will give the workers from three to five times as much as they receive for their labor. There will be no applying to the Van Cleves, the Schwabs, the Rockefellers or any other fellow for a job.

OMRADES OF THE APPEAL ARMY:-Along with the rest of you I have read the story of the conviction of Warren, and it has set my blood to boiling. Comrades, let us make no mistake about it—this is the most critical moment

We have come to the time of trial, when we have to prove ourselves cowards or

So far we have been agitators and talkers. And it is so easy to talk.

But now we are coming to the time when we have to do things-when we have to prove that we mean what we have been saying.

At last our movement has become formidable enough for the enemy to take notice of us, no longer can we be laughed at and brushed aside as dremers. It is recognized that we are in earnest, that we have power behind us. And s se word has gone forth that we must be crushed.

The attack upon the Appeal is the beginning of the . . fight. What are we go-

to do about it? Comrades, there has never been a time when the peal to Reason was more needed than this hour. There has never been a time the Socialist movement had such a chance as it has at this hour.

We have had our spasms of reform, and they have passed. Our magazines are silent, our muckrakers are out of favor. The country has settled back-"prosperity" is coming and a new era of graft and exploitation is under full headway.

I assert that never before in our history has our Congress of Thieves in Washington made such an exhibition of shameless knavery and venality as it is making at the present moment in the gigantic tariff swindle.

And the democratic party politicians—north, east, south and west-have abandoned every pretense of a conviction and rushed to join the other Hogs in the

The democratic party as a party of radicalism is dead. The populist party is dead, the Hearst movement is dead. It is an appalling fact to realize, but it is literally the truth; THAT NO WHERE IN THE COUNTRY HAVE THE VICTIMS OF CAPI-TALISM ANY ORGANIZATION WHICH EVEN PRETENDS TO REPRESENT THEM—SAVE ONLY FOR THE SOCIALIST PARTY!

Comrades, try to realize the opportunity which this opens to us! Try to realize responsibility which it throws upon us! Our time is here at last!

And this is the moment which the government has chosen for the crushing of the Let us realize this situation. We might as well meet the issue promptly

If the federal authorities can jail Warren, they can jail all of us. If they can crush the Appeal, they can crush our whole propaganda. There is no better place to take our stand than here. If the Appeal is not worth

saving, then nothing in our movement is worth saving. If the Appeal can not be saved, then nothing in our movement can be saved. The government's action is a challenge to every Socialist in this country. We must

make our answer unmistakable; sharp and clear as a bugle blast: "YOU CANNOT CRUSH THE APPEAL!"

How can we do it?

So far as the courts are concerned, we can do nothing. They will grind on withheeding the people's cries, as they have ground on in so many cases before. The one thing we can do is to add to the influence and power of the Appeal. We can get the story before the country—WECAN DOUBLE THE SOCIALIST PROP-

AGANDA. That is the one thing the government dreads. It was only because of the Appeal's huge circulation that the authorities resolved to crush it. And they will let it alone

only when we have made them realize that by their attacks they can do nothing save to add to that circulation. Comrades, I call for volunteers. Will you join with me to send this message to

the authors of this outrage?
"SO LONG AS FRED WARREN RESTS UNDER THIS CONVICTION WE

WILL ADD ONE HUNDRED THOUSAND NEW SUBSCRIBERS TO THE AP-PEAL EVERY YEAR!"

"AND IF YOU SEND HIM TO JAIL, WHILE HE IS IN JAIL WE WILL ADD HALF A MILLION NEW SUBS TO THE APPEAL EVERY YEAR!" How can we do it? It will be easy if enough of you will join with me. Let us organize ourselves as the "WARREN DEFENDERS," and let us find two

thousand willing to take this pledge: Beginning this week I agree to add one new subscriber to the Appeal every

week until the case against Warren is dismissed. Beginning on the day that Warren goes to Jall, I will add five new subscribers every week.

That is all. And it is easy if only YOU WILL COME FORWARD. And mind, don't agree to do it unless you mean to keep at it—urless the Appeal

can count upon you to keep at it. I am a busy man-I have been overworking all my life. But I can't be silent in an emergency like this. I will make the promise and I will keep it faithfully.

Will you do the same?

Sit down and send in your name; and the Appeal will print it; and when it has a half million subscribers the government will have our answer. Never fear that plutocracy will miss the significance of it. THEY ARE NOT MISSING ANYTHING IN THE APPEAL THESE DAYS.

Step up now and be counted! This means YOU!

MEYER TO FIGHT PLAN TO SPREAD ANARCHY IN NAVY

Reports to Emperor Taft and Cabinet Organized Attempt to Make En-listed Men Discontented.

By United Press. Washington, June 7 Meyer has laid before the president and cabinet information that an anarchistic element is trying to excite discontent and destroy the standard of efficiency of the enlisted force of the navy, Meyer and the general board of the navy are worried over the situation

It is expected that the navy department will call upon Postmaster General Hitchcock to take action against the societies and individuals responsible.

A secret investigation by the department has unearthed the originators and disseminators of the inflamatory documents. The matter has been kept secret and action postponed because of the belief of the administration officials that it would be opposed as an indication that the government was interfering with free speech. It is realized now, however, that In view of the well-organized campaign for the spreading of this material among the military and naval forces of the United States, something must be done.

SOCIALISM SPREADS IN ARMY

President of Germany Takes Drastic Steps to Prevent Agitation.

Special Cable Dispetch to the Chicago Record-Herald. Copyright, 1909, by the Press Publishing Company, New York World.

Herlin, June 8.—Hundreds of thou-sands of soldiers in the German army, it is computed most of them the young men, are Socialists at heart, secretly imbued with socialistic doctrines. The German military authorities are alarmed at the socialistic campaign carried on, especially among the recruits.

at the socialistic chim-airn carried outsepecially among the recruits.

Captains have-just received the strictest reders to keep Socialist illustature
out of the hands of their men. Twice
a week the soldiers lockers are to be
searched and all printed matter in them
is to be carefully examined. All soldiers
fround with Socialist pamphlets or leaflets will be severely punished and literalure offensive to the government immediately destroyed. Equally severe are the
new regulations governing beer shops,
public houses and restaurants in sarrison towns. Soldiers are forbidden to
patronize any such establishment where
Vorwaerts, the chief Socialist organ, or
any fournal of such stripe is to be had
or which is known as the resort of workingmen inclined to Socialism.

one men incurse to socialism.

On the other hand, the socialistic leaders are intensely active in spreading the knowledge of their tenets among the socidiers. An association has been formed by a leader in the reichstag for the express purpose of reaching soldiers, particularly recruits, and dampening their press purpose of reaching solutions, particularly recruits, and dampening their military ardor. To them the agents of the association secretly supply books which describe the cruelty, folly and wickedness of war, the evil effects on the state of a huge standing army and the uselessness of a military career.

Socialism is atrongly tincturing not the German army alons: its doctrines are spreading through every Austrian barrack, a fact causing the Vienna gov-ernment prolound auxiety.

Read the two articles above. Do you see anything? Shows how the monarchy and the new world oligarchy are working together put down this new agitation—Socialism, the grim menace to plutocracy. It isn't anarchy that the American plutocrats fear—its Socialism. And in this connection let me say that it isn't necessary for the United States government to put it's sleuths on the trail of the fellows who are sending literature to the army and navy. The Appeal pleads guilty. For two years we have been sending literature to all army posts in the United States and its foreign possessions. Evidently this literature is having its effect, if we are to judge from the amount of stir it is creating in Washington. All literature from the Appeal office bears the Appeal imprint and it will not be difficult to locate from whence it comes. The fund to send this literature to the army posts was raised by the Appeal Agitation League. Another installment of put down this new agitation-Socialism, the grim menace to plutocracy. locate from whence it comes. The fund to send this interactive to the amposts was raised by the Appeal Agitation League. Another installment of literature goes by this mail. We are also sending to Mr. Von L. Chapter XVI.-I Become Governor. In accordance with the suggestion a flag was erected over the house where we lived, or what they had pleased to call the governor's mansion. It was a title without an office, but it was not long until the office was to be conferred on me. There were delays in building the

raft with which Herron proposed to leave the island; yet he worked persistently toward his purpose. I supposed, when I saw him and his daugh ter, accompanied by young Balse, approaching my house one day, they were ready to tell of the completion of the raft; but I soon learned that more important matters were under consideration. The young woman was sent within to my wife, while we stood without. After a moment of constraint, the old man said:

"This young fool, Balse, is wanting to marry my daughter." I smiled as I replied, "Have you any

serious objection to him as a son-in-

"It isn't that," replied the old mar soberly; "there may be something in what he says-that it might be better to leave him as protector of my daughter in case I never return to the island. But how in thunder are people going to get married here?"

I smiled and considered and hardly knew what to say. As I was still in the midst of the problem, my wife and young girl emerged from the cave and approached us. As usual wife had

grasped the solution of the situation.
"Mr. Herron," she said, "didn't you
propose that this home of ours be called the governor's palace? Why not elect my husband governor? The power to join couples in marriage would then be conferred on him, and he might marry a couple who stand there evidently willing."

Our eyes turned involuntarily to other's eyes.

"But are you sure it would be legal?" asked the old man.

"Has any legality ever come in any other way?" inquired my wife. We talked over the matter at length. The next day, on three sheets of paper which I had torn from a log book in the sea chest. I issued notice of an election for governor.

I was what might be called a logi-

Replying to the request the school board said: "You are welcome to use the school house to debate all proper questions in, but such things as railroads and telegraphs are impossibilities and rank infidelity. There is nothing in the word of God about them. If God had designed that his intelligent creatures should travel at the frightful speed of fifteen miles an hour by steam, he would have clearly foretold to his holy prophets. It is a devise of Satan to lead immortal souls down to hell ("

Party Has 68 Papers in Empire, One With 140,000 Circulation.

pecial Correspondence to Post-Dispatch. Berlin, May 18.—According to a leading authority, the great menace to the Kaiser's empire is the Socialist press which is stronger in Germany than in any other country. It is stated that there are 68 Socialist papers in Germany, many of them dailies with large circulation. To show the power of these papers, it is stated that the Vorwaerts, published in Berlin, recently celebrated its twenty-fifth anniversary issuing a large special edition, to which leading Socialists and literary men from all over the world contributed. The Vorwaerts is said to have a daily circulation of 140,000 copies, which is considered an unusually large Our eyes turned involuntarily to circulation for a daily paper in the Balse and the girl who had approached German capital. The paper publishes each other and were looking into each Socialist books and pamphlets and is said to pay best prices for contribu-tions, besides compensating its editors better than any other paper in Ger-many. Its \$25,000 profit every year is turned over to the treasury of the So-chlist party to which it belongs.

The Cudahy Packing company was indicted on 695 counts at Topeka in the tion for governor.

I was what might be called a logical candidate. When a man owns an entire country he seems to be the proper man for governor of it.

At the end of the three days required by the notice, the six inhabitants of the island gathered and cast a unanimous vote for me for governor. We didn't exclude woman suffrage.

The day following in the evening we all gathered on the high plain in front of our cave, under fine shade, where the two women had prepared a tasteful and sumptuous meal spread on boards over which had been thrown sail cloth. I felt a little awkward as the couple limed before me for the ceremony. Maybe I didn't say it in perfect shape, but I got through somehow, and pronounced them man and wife.

Then after congratulations and while the women were preparing the meal, I you needed yourself for much less than the federal court for the misuse of revenue stamps. When detected it paid back \$82,000, having no defense. Now see what the government will do to it. The penalty is from \$t\$ to \$1,000 for each count. Now I am not wanting the government to do this, for it would not help to stop frauds and would not help the people, for the price of meat raised and the people would have to pay the fine and costs in the long run, any way. But it will show the difference better for the nation to own the packing industry of the nation, than to be continually prosecuting the private owners for violating the laws? If you needed yourself for much less than you needed yourself for much less than the federal court for the misuse of revenue stamps. When detected it paid back \$82,000, having no defense. Now see what the government will do to it. The penalty is from \$t\$ to \$1,000 for each count. Now I am not wanting the government will do to it. The penalty is from \$t\$ to \$1,000 for each count. Now I am not wanting the government will do to it. The penalty is from \$t\$ to \$1,000 for each count. Now I am not wanting the see what the government will do to it. Then after congratulations and while the women were preparing the meal, I copied from a page in the log book, a certificate of marriage and presented it to the bride, at the same time beginning a record of my office, with my election and this marriage.

It may not have been entirely regular, but what better could one have done. Everyone concerned was satisfied, and if that young couple are not legally married, who are?

We enjoyed the wedding repast, talking and laughing until late in the eventure of the produce of the time in the things it needs, without the interference of any middle men. THE YOUNG MOTHER AND THE FAT HOG

The following article by Dr. Hurty, secretary of the Indiana state board of health, appeared in the official reports of that state, and singularly enough was copied into the Kansas state board of health bulletin. Unless one is a fool health bulletin. was copied into the Kansas state board of health bulletin. Unless one is a fool he or she ought to see the point, so we reprint it without comment:

One time a little mother, who was only twenty-five years old began to feel tired all the time. Her appetite had failed her for weeks before the tired feeling came. Her three little girls, once a joy in her life, now became a burden to her. It was "Mamma," "Mamma," all day long. She never had noticed these appeals until the tired feeling came. The little mother also had red spots on her cheeks and a slight, dry cough. One day, when dragging herself around, forcing her weary body to work, she felt a sharp but slight pain in her chest, her head grew dizry, and suddenly her mouth filled with blood. The hemorrhage was not severe, but it left her very weak. The doctor she had consulted for her cough and tired feeling had said: "You are all run down; you need a tonic." For a fee he prescribed bitters made of alcohol, water and gentian. This gave her false strength for a while, for it checked out her little reserve. When the hemorrhage occurred, she and all her neighbors knew she had consumption, and the doctor should have known it and told her months before.

Now she wrote to the state board of health, and said: "I am told that

A big, fat hog one morning found he had a pain in his belly. He squealed loudly, and the farmer came out of his house to see what was the matter. "He's got the hog cholry," said the hired man. So the farmer telegraphed to Secretary Wilson, of the United States department of agriculture (who said the other day he had 3,000 experts in animal and plant diseases), and the reply was: "Cert, I'll send you a man right away." Sure enough, the man came. He said he was a D. V. S., and he was, too. Ke had a government syringe and a bottle of government medicine in his hand-bag, and he went for the hog. It got well. Philadelphia has been all torn up for some time because of a strike of the street car men. Of course the legal uthorities at once came to the assisance of the corporations with the use of the policeman's club and revolver and many people have been killed and wounded in supporting the monopoly interests. The authorities never made any attempt to force the grinding monopoly to give decent wages and fair conditions. Men do not throw down their bread and butter without nere is some reason. But the authorities there fool workers elect never in-quire into the justice of the workers' cause, but at once pounce upon them with force to make them comply with with force to make them comply with the demands of the masters, just as chattel slaves were treated. These con-flicts will continue as long as industries are in private hands. They are the ef-fects of causes inherent in private own-ership. If the street car system were ership. If the street car system publicly owned and operated the paying public would accord the employes fair treatment and would not give any sympathy for the men if they demande that which was unfair. But the me vote into office men who want private ownership so they can blackmail and graft on the corporations, and the men get it in the neck every time. When the men get tired of being skinned and

Friend Wayland-Acting on the prac-tical suggestion of Gust Stohlberg, of Mus-tegon, Mich., I herewith enclose \$1 and the names of four new subscribers for the Appeal. The only way to successfully de-Appeal. The only way to successfully defeat the capitalist war on the Appeal is to swell its circulation to a million, meet the Warren outrages and every abuse by goreramental power, with quick responses of ever increasing scenders, and the dollars inseeded to sustain the Appeal, the greatest paper on earth bestiling for humanity against inhuman greed, its mission is to place humanity first and its created capital second, to serve humanity. This is the revolution of our day. As in svery struggle for instice the masses alone can struggle for justice the masses alone can win by united action. The enemy is centering its batteries on the Appeal because it has the largest army of readers ever enrolled for humanity. Let the answer be by each reader some immediate act of vital upport of the Appeal. I have not been voting the Socialist ticket, but the Warren outrage lines me up on the Appeal side in this fight which involves all humanity against the oppression of capitalism. As my further answer to the attack on the Appeal I enclose my pledge for \$45 to the defense fund .- E. E. Eidgely, Mulberry.

"In other words are they thorpublic schools, the public roads and the government threatened to command a fair reward for their labor. "In other words are they thorpublic schools, the public of the tion that will surpass the dreams of its present founders. Our efforts will be justified a thousand fold and humanbe justified a thousand fold and humanity will be lifted from the narrow confines of capitalism and our children will learn with pleasure what we have learned with galling struggles and bitter experience. I want to live through the present crisis and see the movement grow into a combination that will control the world and open the way for the long promised Brotherhood of Man. Under our present barbarism we go to church and hear the command to love our enemies and on the return home we enlist in the army and train ourselves to kill our so-called enemies by selves to kill our so-called enemies by wholesale, and yet, we call ourselves a wholesale, and yet, we call ourselves a Christian people. If one of our fellowmen should take a loaf of bread we would stand by and sanction the process, of law that would separate him from his family and put him on the rock pile, or in prison while his family was 'left on the cold charity of the world. On the other extreme Mr. Patten is permitted to rob millions and takes his vacations unmolested. Such is life under this present system and under these conditions patience ceases to be a virture. But this is what we, the working class, voted for and we are only getting in good measure what we said we wanted. We are a strange being; we would rather take promises we said we wanted. We are a strange being; we would rather take promises from our proven enemies-than to study and do our own thinking for fear some of our Potter friends would call us a Socialist.—M. B. I commend to of judges in office, practice tyranny Appeal readers the following editorials. These are a fair sample of the hundreds that have drifted in the past few weeks. It would take a paper several times the size of the Appeal to print them all:

"An Attack on the Press."

From Johnston, Pa., Daily Democrat. It is reported from Washingtonbelieving that the reports are not in the appointive system. without foundation-that a concerted movement is afoot in administration circles to put the Appeal to Reason out of business. The Appeal is the organ of the Socialist party and it has a weekly circulation of more than 300,000. Its assaults upon the administration have been so telling and its strictures so blistering that the very highest members of the administration have been compelled to take notice.

The Appeal to Reason is as much entitled as any other paper in the country to the protection of the laws and the use of the mails. But apparently there is a set purpose to deprive it of such protection and to exercise a censorship which will ulti-mately deny it the rights which are essential to its very existence.

If the Appeal to Reason can be suppressed what will there be to hinder the suppression of any other pub lication which may be objectionable to Mr. Tait and his subordinates? May we not expect a like censorship sooner or later to be directed against LaFollette's Weekly and Mr. Bryan's Commoner? These publications are certainly as bitterly antagonistic to the administration regime as the Appeal to Reason has been; and while they are supporters of widely differ-ent ideas from those advocated by the Socialist organ, they are still at with practically everything which has the administration favor.

The attack on the Appeal to Reason is one which should arouse the peopress is essential to the maintenance of a free government and a free press is impossible if a post-office censor or a federal district attorney may deliberately set about the destrucoffensive to the party in po With a precedent such as the Taft ad ministration seeks to establish in connection with the Socialist organ a narrow and bigoted democratic president at some future time might undertake the suppression of every republican newspaper which dared to indulge in criticism.

"A Blow at a Free Press."

From Reporter-Index, Hickory, Miss. We all remember how the million aire mine owners, when they were trying to destroy the labor organizations in Colorado had Moyer, Hay wood and Pettibone kidnaped from Colorado and carried into Idaho without a warrant and when they were not legally charged with any crime We also remember that on the evidence of a convict they were ther indicted, charged with being accessories to the murder of the governor, and that they were finally tried and acquitted. The right of the mine owners who live in New York to have these labor leaders dragged from one state to another without legal process, was contested in the federal courts and the millionaires won.

From Brighton, Iowa, Enterprise Warren was not prosecuted as the champion of the working classes, nor because he had injured ex-Governor Taylor, or violated any law. His of-fense was lese majesty. We know what we are talking about for we have been through it all. The courts of this country do not permit any efwill use the entire machinery of justice to crush any man or editor who dares to expose their wrong doing. It is the of Warren was not in the interest of ing, but to ap case the weath of the in themselves to justify the charge judges and court officials who could make no other reply to his exposures than to try and intimidate or destroy the one who published them. We doubt if the question of Socialism had anything to do with it.

When the powers that be decided to prosecute Warren he was foolish to try to fight them with their own weapons. They had the machinery and could grind out their own grist when they got everything ready and no amount of money or lawyers could save him. Samson knew better than to fight the Philistines with their own weapons and he whipped them all. Once the Enterprise offended a ourt in a similar way and for five years the machinery of justice was
