This is the Union Label of the
United Hatters of North America

When you are buying a FUR HAT, soft or stiff, see to it that the genuine Union Label is sewed in it. If a retailer has loose labels in his possession and offers to put one in a hat for you, do not patronize him. He has not any right to have loose labels. Loose labels in retail stores are counterfeits. Do not listen to any explanation as to why the hat has no label. The genuine union label is perforated on the four edges exactly the same as a postage stamp. Counterfeits are sometimes perforated on three of the edges, and sometimes only on two. Keep a sharp lookout for the counterfeits. Unprincipled manufacturers are using them in order to get rid of their scab-made hats. The John B. Stetson Co., of Philadelphia, Pa., and E. M. Knox, of Brooklyn, New York, are non-union concerns.

STRIKE NOTICES.

Strikes are on in the following places. All miners and others are requested to stay away until a settlement is reached.

VETERAN MINE, Near Ely, Nevada.

Douglas Island, Alaska.

THE EXECUTIVE BOARD of the Western Federation of Miners adjourned last Saturday and the various members returned to their respective districts.

IT IS SELDOM that a highwayman robs a child, but the mercenary pirate in the mill, factory, department store and sweatshop feels no scruple of conscience in coining childhood into profit. The highwayman is looked upon as an outlaw, while the Caesar in the mill and factory is lauded as the defender of "law and order."

THE DEPARTMENT STORES OF CHICAGO have formed a combination to make war on organized labor, according to the reports in the press. When did the department stores ever cease to crusade against labor? The "redlight" districts of the "Windy City" are filled with the victims of starvation wages of department stores. The streets of Chicago at night are paraded by hundreds of women whose meagre wages in the department stores continually bid for dishonor!

THE CONVENTION of the Western Federation, just concluded, was one of the most gratifying in the history of the organization in point of membership and finances. It is clear of all indebtedness. This showing when it is considered that the Federation has emerged from a bitter struggle with the mine operators of the West, is a testimony of the efficacy and unity of their organization, and is a tribute to the fearless character and honest purpose of the leaders. The Federation reaffirms its past political policy—the principles of Socialism, and recommends the membership to unite on those principles. Toilers' Defense.

THE CONVENTION of the Western Federation of Miners, by almost unanimous vote, adopted a resolution to issue a call for a conference of all miners' organizations in the country for the purpose of forming an offensive and defensive alliance. The proposition was warmly championed by Secretary Hayes, of the Illinois United Mine Workers, and the indications are that a great combine of mine workers to cover the whole American continent will come out of the action taken. Cleveland Citizen.

FINED.

Bourne, Ore., Aug. 5, 1909

Editor Miners' Magazine:

I have been instructed to send to you for publication in the Miners' Magazine, the name of Lawrence Scott, for refusing to pay his dues and speaking against this local instead of trying to further the cause of unionism. Scott transferred here from Goldfield Miners' Union. A fine of \$50.00 has been assessed against him and all organized labor is hereby notified of his attitude toward unionism. Said fine must be paid into the treasury of No. 42 W. F. M.

I am Fraternally Yours,
J. D. McDONALD,
Financial Secretary Bourne Miners' Union.

STRONGER THAN EVER, the Western Federation of Miners are now in convention at Denver. This organization of workingmen may well be proud of their triumphs. They have been attacked, vilified and denounced as no others. Their women have been outraged and their officers kidnapped with the press, pulpit and bar snarling at their heels. Their leaders have stood within reach of the hangman's noose, as every force in society applauded Orchard and his Pinkerton pals. No horror has been too extreme. But the American blood of these western diggers has won. Only last month, the state of Colorado made humble apology by voting nearly \$60,000 to reimburse them for losses. This vote was nonpartisan and practically unanimous. The sense of fairness of the Centennial state was at last aroused. The Western Federation of Miners has truly been tested, and nobly did they respond. Weaker men would have been scattered to the four winds.

The Union Leader extends greetings to this magnificent body of workers. Toledo Union Leader.

IN THE TROY ADVOCATE of June 25th, there appeared what is presumed to be a paid advertisement eulogizing a work entitled, "The Industrial Riddle" and written by Herbert E. Clamp. The Troy Advocate has been sent to the editor of the Miners' Magazine "marked" and accompanied by a postal card offering certain inducements in exchange for publishing the advertisement in the official organ of the Western Federation of Miners. The article boosting the work written by Clamp bears the catchy caption: "A solution of the Labor Question." It is a noticeable fact that since the labor movement has grown strong numerically, that experts have taxed their genius to place upon the market literary wares that might gather in the dollars of the membership of labor. The most unscrupulous methods have been used to fleece the working class, and many labor journals have been used as a medium to advance the personal interests of adventurers in the domain of literature. The advertisement which appeared in the Troy Advocate was in all probability written by Clamp, and the gentleman spares no efforts in lauding the product of his fertile brain.

But Clamp in compiling his advertisement, made a serious mistake when he declared that his work, which is about to come from the press and to be immediately placed on the market, had received the approval of "several banking authorities."

A literary production on the solution of the labor problem that merits the sanction of usurers and sharks, has no place in the library of the working class.

JAMES FARLEY, the strike-breaker, is reported to have cleaned up about \$1,000,000 and is now contemplating a retirement from business.

Farley was a conspicuous figure in breaking the Interborough strike in New York for August Belmont, the banker who sits with Samuel Gompers in the councils of a Civic Federation. Farley has broken strikes in Brooklyn, Scranton, Richmond and a number of other places, and made a specialty of maintaining spies in labor organizations. Farley, according to the press reports, will now take up his residence in Plattsburg, N. Y., where he will enjoy the luxury of an easy life on the vast fortune that he reaped as a professional strike-breaker.

IN THE STRIKE of the steel workers, capitalism has shown the mailed hand of brutal power. There has been no hesitation on the part of the State Constabulary to carry out orders and shoot down without mercy unarmed men who have appropriated to themselves the right to enter an emphatic protest against the damnable slavery imposed upon human beings. The State Constabulary belongs to the corporations of Pennsylvania and the mandate of industrial czars is law to the armed Cossacks who are equipped by the state and who are willing to carry into execution the cold-blooded order of Goebel, who became known to the American people through his command, "Shoot to kill!" The steel trust that is now waging a relentless battle against organized labor is ably supported by the official machinery of the state of Pennsylvania, and if reinforcements are needed to suppress the slaves who have summoned courage to rebel against soulless masters, then federal troops will be dispatched to the Keystone State in order that steel magnates may hold their supremacy in that great commonwealth, where labor is crushed through the hellish greed of modern pirates.

PRESIDENT MOYER has gone to the Black Hills to be absent from headquarters two weeks.

DIVINITY must have gone to sleep. The emperors and kings and princes who have ruled the nations of the earth by divine right are getting into hot water everywhere. Absolutism, despotism, monarchism, all based on the divine right, are fast losing ground. The crowns are crumbling to dust.

Within less than five years we have seen the backbone of European and Asiatic absolutism broken. Russia, Turkey, Persia! Constitutionalism and democracy have forced the rulers by divine right out of business. The spirit of democracy and republicanism is permeating the entire civilized world. Political democracy will be followed by social democracy.

Today capitalism has established a kind of rule by divine right on the economic field. "God gave me the coal mines!" said Mr. Baer of Pennsylvania. Some day the people will ask him to show a deed of trust with God's signature attached, and he will have a hard time to prove the rightful ownership.

The people are beginning to see that this old earth of ours belongs to the people to live on. Those who do the world's work shall enjoy the fruits of nature and the results of their toil. Parasites and drones may have some *raison d'être*, but they shall not live off the sweat and life-blood of the people.

When these sound, fundamental ideas, this conception of a new world, once permeate the minds of the nations of the earth, there will be trouble for the parasites and the day of labor's emancipation will be near.—St. Louis Labor.

Will Welcome the Campaign of Education.

THE HEAD of Columbia College has sounded the bugle notes of alarm. The president of a famed institution of learning, while in Denver attending the convention of the National Education Association, has thundered his warning to the people of America and appealed to the people in the name of LIBERTY and LAW, to come to the rescue with a donation of \$50,000, to stamp out the virus of Socialism, that is spreading throughout the country and even inoculating the most brilliant minds of the universities and colleges.

Dr. Nicholas Murray Butler has declared that to "combat the rapidly gathering hosts of discontent the National Civic Federation has addressed a circular letter to prominent men in all the large cities of the country." The letter in part is as follows:

"I do not know whether or not you have observed the headway Socialism has been making in the United States during the past five years, but their votes at the elections has jumped from 38,000 to 450,000, which practically means that there are over two million men, women and children preaching class hatred and revolution. I mention the women and children because it is a known fact that families of Socialists all become trained propagandists.

MENACE TO COUNTRY.

"I am enclosing you a pamphlet which the National Civic Federation is getting out with a view to showing in concrete form the menace of Socialism in this country. At present there is absolutely no opposition to the Socialist movement in the United States. England, France and Germany made the same mistake, with results with which you are no doubt familiar.

"In this country a committee of the National Civic Federation, under the chairmanship of Dr. Nicholas Murray Butler, has been at work for almost a year investigating the situation and preparing plans of campaign, the purpose of which is to educate speakers and writers rather than reach individuals. In other words we are getting out a

handbook for them. Such an effort as we are making requires the expenditure of considerable money, and a special fund of \$50,000 is being raised for the purpose. Will you contribute toward it?"

Excerpts from the enclosed pamphlet read:

"Do you know that there are 2,000,000 men, women and children in this country brazenly preaching confiscation of property, class hatred and revolution through the press, the pulpit, the Social settlement, the college classroom and last, but not least, in our public schools. And are you aware of the fact that they openly announce their preference for the red flag of anarchy over the Stars and Stripes?"

When the letter of the National Civic Federation makes the claim that "at present there is absolutely no opposition to the Socialist movement in the United States," there is launched as brazen a lie as ever found its way into print. All the forces of capitalism are arrayed against Socialism, and the capitalists are now using the machinery of government to suppress the speaker and the publication, that proclaim for the collective ownership of the earth and the machines of production and distribution. Thousands of men and women have been arrested, because they dared to stand upon the street and proclaim their loyalty to the principles of Socialism. Many have been brutally beaten and bear the scars of the policemen's clubs, and but a few weeks ago a court sentenced to prison, one of the most prominent Socialist editors in America, and yet, the secretary of a National Civic Federation has the audacity to declare in a circular letter, that there is no "opposition." The National Civic Federation and its hired ally, the president of an aristocratic educational institution propose to start a campaign of education, and through a pamphlet or hand book for speakers and writers propose to "stamp out Socialism." The Socialist will welcome "the campaign of education" because the Socialist is armed with logic to overwhelm the hirelings who draw salaries from a master class to preach for the maintenance and perpetuation of the reign of robbery. All hail, the campaign of education!

The Herald Is Slightly Mistaken.

A MEMBER of the Western Federation of Miners at Bingham Canyon, Utah, forwarded a copy of the Salt Lake Herald to the editor of the Miners' Magazine which contained the following editorial under the caption: "Bullets for Strikers."

"There was a riot at McKee's Rocks, Pa., Wednesday, in which six men were wounded, two of them fatally. The dispatches did not state whether the injured men were officers or striking employees, but it is a safe guess that they belong to the latter class. There is no election this year and bullets are being used by the steel trust instead of promises of better pay.

"These is a strike on in several of the mills of the United States Steel Corporation and the time is evidently at hand for J. P. Morgan to make good his threat of nine years ago to smash the union of the Amalgamated Association of Iron, Steel and Tin Workers. Ninety per cent. of the employees of the fifteen mills in trouble are non-unions and it is probable that the union will be wiped out before the struggle is ended.

"The strike at McKee's Rocks, however, has no connection with the fight of the Amalgamated Association. The men who were shot

down are not affiliated with any union, and stopped work on account of grievances of their own. They, too, will lose. Pennsylvania is controlled by the steel trust, and a few human lives will not be allowed to stand in the way. This was proven at Homestead in the days of Andrew Carnegie, when the hired Pinkertons slew the strikers under pretense of being officers of the law, and again at Hazelton, when the State Constabulary ruthlessly butchered the miners who were marching upon the public highway.

"Nevertheless, the votes of the survivors can be had at the customary price on election day, the hope of increased wages being held out as an extra inducement. Pennsylvania is rotten to the core, and conditions prevailing there would not be tolerated for a single hour in any other state in the Union. The 'land of the free and home of the brave' does not apply to the domain of the steel trust."

The Salt Lake Herald is not a labor publication and its editorial columns are not consecrated to the advocacy of those principles that have for their aim and object the uplifting of the struggling slaves, who sometimes protest against the unbearable despotism of organized greed. The Salt Lake Herald as a daily journal states some truths

with a brutal frankness that may be condemned by plutoeratic brethren whose souls have become calloused through an inordinate appetite for dividends.

But the Salt Lake Herald in its statement, "Pennsylvania is rotten to the core, and conditions prevailing there would not be tolerated for a single hour in any other state in the Union, the 'land of the free and home of the brave' does not apply to the domain of the steel trust," is mistaken, as the same conditions that prevail in Pennsylvania have prevailed and still prevail in almost every state of this Union, wherever the industrial Caesar has unfurled the standard of greed.

In Colorado and Idaho "bullets for strikers" were administered and the people "tolerated" the same with scarcely a protest! In Virginia strikers were slaughtered at midnight as they slept, and their murderers were not even called to answer for their crimes before the

courts. In Illinois the soil of many a mining district has been crimsoned with the blood of strikers, and the red-handed criminals were even lauded as upholders and defenders of "law and order."

Even in Utah, that great state in which the Herald is published, strikers have been greeted with bullets and even a woman whose hair had been whitened by the snows of seventy winters was thrown into a "bullpen" because she dared to lift her voice in behalf of coal miners whose families had been evicted from the hovels of corporations through the power of armed might. Capitalism is as brutal in one state as in another, and the people only make verbal protests against corporate outrages when the infamies are perpetrated a long distance from home. The great mass of the people are becoming cowardly and the few men who have the courage to revolt are shot down like dogs or are persecuted while the *people* remain silent to the wrongs inflicted by money-mad brigands.

Branded as a Liar.

THE SAN FRANCISCO BULLETIN in a recent issue, contained the following in its local columns:

"Walter H. Linforth received final judgment for \$10,800 today against the gas company for the wrecking of his flats at Leavenworth and Washington streets several years ago.

"Harry Orehard, the assassin of Governor Steunenburg of Idaho, testified that he wrecked the flat with dynamite in an attempt to kill Fred Bradley, a mining expert.

"Before Orehard's story was known Linforth got judgment against the gas company, the theory of the explosion being defective gas pipe. The gas company sought a reversal of the judgment and offered Orehard's confession in evidence."

The above in the news columns of the San Francisco Bulletin, will be of interest to the membership of the Western Federation of Miners, who are more or less acquainted with the unsavory record of the degenerate whom a Pinkerton Detective Agency utilized in its efforts to fasten the crime of murder on the Federation. When the hireling, trained and tutored by a traitor to the Mollie Maguires, told his story in a court-room implicating three men in the assassination of the ex-governor of the state of Idaho, the capitalist press was fulsome in its adulation of the penitent who had opened his heart to God and had

been converted through the pleading eloquence of one Jimmie McParland, who became an expert on quoting scripture while leading the self-confessed murderer, thief gambler, bigamist, wife deserter, bomb-manufacturer and sheep-robbber, back to the ways of righteousness. The Rev. McParland, according to his own statement, "mellowed" the sinner with imported Havana's and while the Sportive Harry pulled on a perfumed weed from Cuba, the Irish Judas who hanged several of his countrymen in Pennsylvania, worked on the weakness of his dupe, until a story was framed that was considered strong enough to send a trinity to the scaffold. But Old M'Parland, the gumshoe, was not dealing with the Mollie Maguires when he was measuring steel with the Western Federation of Miners. His crude conspiracy was shattered and the receiver of blood money, who years ago hanged men of his race for the dirty dollars of a coal corporation in the Keystone state, was baffled by men who punctured the frame-up of a conscienceless and soulless scoundrel.

The Supreme Court of California has now repudiated the story of the flattered Harry, and the perjured fiend upon whom McParland built his hopes of convicting a labor organization of red-handed crime, has been branded as a liar by a judicial tribunal. It is now in order for some of the ministers of the gospel who pointed out Orehard as a firebrand that was snatched from the burning to once more deliver eulogies on the reformed sinner.

INFORMATION WANTED.

Information is wanted of the whereabouts of Patrick O'Neill who came to this country about thirty-two years ago. He formerly lived in New York but afterwards left for California where it is said he became identified with a olive grove. A party named Bodie is supposed to know the whereabouts of O'Neill and Bodie lives somewhere in California. Anyone knowing the address of O'Neill or Bodie will confer a great favor by communicating with Mrs. Lily Davis, Box 164, Lafayette, Colorado.

INFORMATION WANTED.

Wanted To find at once, John (Jack) Sheridan formerly of Newton, Kansas, and when last heard of was in Globe, Arizona. The death of Mr. Sheridan's father and sickness of his mother make it necessary to reach him at once, and any one knowing of his whereabouts notify Thomas Sheridan, Newton, Kansas.

AABEL REFUTES THE CHARGES OF FLYNN.

Denver, Colo., August 4, 1909.

Editor Miners' Magazine:

In one P. W. Flynn's "answer" to President Moyer's supplementary report which was published in the Miners' Magazine of July 29th, certain serious charges, or allegations, were made concerning me and questioning my honor and integrity as a member of organized labor.

Flynn asserts that "C. W. Aabel . . . is the man who declared his willingness to stab on the members of the Machinists' union when out on strike, and who has often been seen in the office of the Thiele Detective Agency."

That these charges are ridiculous falsehoods will readily be seen when it is known that there is no Thiele and no Pinkerton Detective Agency in Butte, for the laws of Montana make it a crime against the people for such to exist within the boundaries of that state.

This question would naturally also present itself to all fair-minded men: "If Flynn knew anyone to be a traitor to the organization, why did he not long ago prefer charges in the local union against such traitor and have him expelled? Why did he keep that information to himself until he came to a convention in Denver, hundreds of miles away from his home local, and

then fight with grim determination to keep it from becoming the property of the convention, even going so far as to vote to throw his own 'answer' in the waste paper basket in order that he might not be made answerable to the membership for what that 'answer' contained?"

However, immediately after seeing these charges in the Magazine, I left Butte for Denver, hoping to reach the convention before it adjourned in order that I might confront Flynn before the delegates and make him either prove these scurrilous slanders, or force him to retract and apologize. I arrived here in Denver Tuesday evening about 10 o'clock, and found to my sorrow that the convention had adjourned sine die about four hours previously, and that Flynn had already left town.

Being thus deprived one opportunity to deny his assertions about me, and realizing that these have received a wide publicity throughout the jurisdiction of the W. F. of M. through the medium of the minutes of the convention as printed in the Miners' Magazine, I now declare that the aforesaid charges are absolutely false and without foundation prompted by Flynn's malicious, wilfully prevaricating brain, because of my persistent opposition to him in his policy of destruction and disruption in the Western Federation of Miners, and, as soon as I come back to Butte, I shall start proceedings against him and make him retract.

C. W. AABEL.

REFLECTIONS.

Editor Miners' Magazine:

Rhyolite, Nev., July 30, 1909

Referring to article in your publication of July 21st a reply to Thos Dickman by J. J. Kelly will say: If the article was calculated to inspire the members of Bonanza Miners' Union it has failed in its mission, as the said members, knowing the record of the man in this local, fail to be impressed with the Christian forebearance of a man who has violated the most solemn obligation which man can take. The presumption of our late secretary is amazing indeed. While he would lead us to think that he has the highest regard for the opponent who comes out in the foreground with an attack he tries to shield himself under the cloak of religion and in a pious way would try to convince the members of the W. F. of M. that his affairs with this local were clear and above reproach. Of the accusation made by Thos. Dickman I know nothing, and as it has no bearing on the internal affairs of this union, I will pass it by. But, as regards the record in this local of our former secretary after giving the matter due considera-

tion, I have come to the conclusion that for the best interests of our local and the W. F. of M. in general, the membership should be given some enlightenment on the subject. In the above mentioned article Brother Kelly refers to the fact that after serving two years as secretary of Bonanza Miners' Union he found it necessary to retire, but he did not state why he so found it necessary. The fact of the matter is that a few of the active members of our local being suspicious that all was not well with the financial affairs of our secretary and being unable to accomplish any change in office through the ballot, deemed it necessary to introduce a resolution to the effect that no secretary should hold office in this local for more than two consecutive terms. The resolution was adopted, hence the reason of retirement. Brother Kelly further stated that after serving two years in office there was no fault found with his record. Being the present incumbent and successor to J. J. Kelly and in a position to know whereof I speak, I wish to make exception to the statement. On June 5, 1909, Brother Kelly was tried and found guilty of violating his obligation to this union by misappropriating the funds and falsifying his account on the books and as a penalty he has been expelled from all offices in our local and stands suspended from our meetings for a period of three months and has been ordered to reimburse Local No. 235 for all shortages which have been or may be brought to light against him in the future.

And to date he has failed to make good for one dollar on his shortage account since he was judged guilty of the offense and furthermore he has paid no dues to this local since April and at present is in bad standing.

The readers of this article will no doubt wonder at the mildness of the penalty imposed on our former secretary, but through the influence of staunch friends and the recommendation of extreme leniency by the trial committee, the members of No. 235 were induced to act accordingly although the evidence submitted was conclusive and left no doubt as to the guilt of our former secretary.

I wish further to make exception to the statement in regard to the drunken bums that Brother Kelly says infest our locals and I take it that he refers to the "hobo miner" and even though the average man of that type of miners be addicted to the excessive use of liquor his principles as a union man will bear the closest investigation and he will ever be found loyal to the organization, and such a statement from our former secretary will be taken as a vile insult to the men who are ever ready to resent any infringement on the rights of the working class, and are at all times ready to defend the principles of the W. F. of M.—the "hobo miners."

And in conclusion let me state that I have no personal grievance nor am I in any way prejudiced against Brother Kelly, but believing that for the best interests of our organization the true facts of the case should be made known and in the sense of fairness and justice to all, I respectfully submit the above. Yours fraternally,

JOSEPH E. GARRETT,
Financial Secretary, Bonanza No. 235.

A CAUSTIC ARRAIGNMENT.

Greenwood, B. C., July 10, 1909.

Editor Miners' Magazine:

That part of B. C. known as the Boundary, in which is situated Phoenix and Greenwood, is not enjoying the unparalleled prosperity that was fondly anticipated by the shoestring business pariahs of those camps, since the Granby and Mothers Lode mines instituted their infamous blacklists against active members of the W. F. of M..

Phoenix did not, but Greenwood did, at the dictation of Tennessee Black-Nigger-Driver McAllister form a Citizens' Alliance, to run out all those who took an active interest in unionism. Now no doubt the cockroach business men can see the wisdom of their actions, since nearly all the trade was diverted to McAllister's Mother Lode store. And now the largest store has been forced to turn over its insurance to the bank.

They would welcome with open arms an agitator if they could see a return of the conditions of one short year ago that they were in such haste to destroy. The only consolation that is left them, is, that Lewisohn, who has been elected to the directorate of the B. C. Copper Co., is the man who tied the bright jingling can on McAllister in Tennessee. McAllister now sees the folly of his boast to put the Miners' union out of business. Mac is a whale for mining freaks—"Mandarin" keeper (if he only had a pigtail), is a re-incarnation of the late lamented Li Hung Chang, finds time, besides his official duties, to attend to his interests in the store at Boyds where the B. C. Copper's Napoleon mine is situated.

Of course there is no compulsion to trade at the store, neither is there any necessity for the boarding boss and superintendent, "Andrew Carnegie" Johns, to keep you at the mine. Johns, or rather Mrs. Alice Johns, also runs the boarding house at Wellington camp (another B. C. Copper property), where the bill of fare for last winter, and the names of the men who stood for it, should be engraved on imperishable marble and placed in a museum for the benefit of future generations who wish to know what a "home guard" will stand for. "Biled" beef three times a day and baking powder biscuits. Toast and hot cakes were conspicuous by their absence. This suited Madden, but it drove "Mose the Miner" to sobriety and the wilds of the West Fork.

McIntosh, the superintendent at the Mother Lode after killing Dimmick's baby and maiming his wife for life by his reckless mining, told him if he wanted compensation he would have to fight for it through the courts. Fothergill, who was maimed for life, and entitled to \$1,500 under the law, was bulldurhamed by this malodorous outfit with the premise of a life long job, then gave him \$400 and the ha, ha.

McIntosh read a paper before the Western branch of the Canadian Mining Institute on the utility of "Spiral" raises for the cheap extraction of ore in low grade mines. How he must have suffered from brain fog. No doubt a jolt out of every demijohn on the hill revived him. If you would hold your job, tell McIntosh where Mr. Demi-John can be found; it's the high road to promotion.

Then there is Madden, late psuedo foreman (at \$4.50 "shifters" get \$5.00 per day in the mines) and now kitchen mechanic at Wellington camp who in order to beat the miners working in a winze out of an extra four bits, called it a crosscut "yinty" in his daily report.

Four years ago the Magazine printed the Miners Ten Commandments, but they sadly need revision, as it is getting fashionable in some of these camps to provide the "staff" with the free use of a horse and buggy. Madden bought a cutter last winter and a buggy this summer for the use of "Andrew Carnegie" Johns, the superintendent, and goes to town for supplies in his own time. Needless to say this gopherd-mouthed biped retains his "job." It would be blank idiocy for Johns to fire such a self-sacrificing man, especially as it is the company who foots the bill.

Instances of this kind are common in all camps and if stockholders were aware of it, the "trusted officers" would not receive so much credit for swindling the unfortunate cripples.

Madden boasts about the invitations he receives from the elite of society, of being invited to dinner by Mrs. O. B. Smith and Mrs. Keefer. No doubt these worthy and estimable ladies are of a scientific turn, perhaps also they are disciples of Darwin, and want to study the "missing link" at close range. They may want to "can" per medium of the phonograph. Madden's peculiar laugh as a weapon of offense against savages, in case their husbands ever went to foreign lands. Madden's "canned" laugh would be more dangerous to a Solomon Islander than a gunboat. The sight of brute suffering always excites the visibilities of this laughing hyena. The provincial

police might inquire how the cayuse, this human brute drives, lost the tips of his ears. They were not frozen off.

As the ladies of the "oldest profession on earth" would not throw water on "Annias" Madden if he were burning, his stories of entertainment by respectable people must be put down as Orchardisms, as a Cameron sinking pump is the only thing to be compared to him at table, where it is sucking air.

It was ever thus, under the present system the liar, perjuror and soulless villain are placed by organized and legalized chicanery and fraud in positions to combat and bulldoze every effort made to alleviate the sufferings of humanity. Sufferings that are the result of an industrial system that sacrifices men, women and children on its altars, so that a few may revel in luxury, vice and idleness while the multitude experience all the agonies of the damned. Yours truly,

WILLIAM ONTHYKE.

Resolution No. 87, with report of committee on same, read as follows:

No. 87.

Butte, Mont., July 10, 1909.

Western Federation of Miners, Denver, Colo.:

Gentlemen—We, the members of Union No. 83, of the Brewery Engineers of Butte, Mont., beg to submit for your consideration this communication regarding Stationary Engineers' Union No. 83, discriminating against us as members of that organization in good standing:

The first of last May the Brewery Workers' old contract expired. The Montana Brewery Proprietors' Association refused to sign their new contract and consequently left them locked out. The Brewery Workers always claimed jurisdiction over the Brewery Engineers according to their constitution, consequently there was nothing left for us to do but to join them and go out with them, as soon as we went out, members of 83 took our place. In the settlement that was made, it was agreed upon that no one who went on strike should be discriminated against. A few weeks after the settlement the Olympia Brewing Company wanted an engineer, and the manager, J. V. Collins, notified Adam Weidenfeller, one of the old engineers, that he could have the job, but, owing to the contract they had with Stationary Engineers' Union No. 83, he would have to put in an application to the business agent of that organization, which he did, but was absolutely refused an application and told they had men for those jobs.

The Centennial Brewing Company was in need of a refrigerating engineer, and put Sheckenbach, one of the old engineers, to work as fourth engineer, as soon as No. 83 found out he was working there, Mr. Mitchell, the business agent of 83, went to the Centennial Brewing office and demanded

that man's discharge. He was discharged at once and told why.

The same thing was done at the Crystal Brewery when they attempted to hire one of the old engineers.

Now we, the Brewery Engineers of Butte, Mont., and members of Engineers' Union No. 83 in good standing, claim that a jurisdiction dispute between the two organizations does not justify either organization to discriminate against any of its members, who are unfortunately placed in such a position as not to be able to know where they belong, and we appeal to you in the name of organized labor and industrial unionism for justice and equity trusting to your consideration and sincerity in this matter. We are,

Very respectfully,

ADAM WEIDENFELLER,
CHRIST MEIGER,
Committee.

We, your committee on grievance No. 87, beg leave to report as follows:

We recommend to this convention that No. 83 be notified to stop discrimination against the Brewery Workers, who came out in defense of their union and their manhood.

Respectfully submitted,

ED REGAN, Chairman,
WM. McCARTNEY,
FRANK DUNN,
MICHAEL J. O'CONNOR,

No. 187.

New York City, July 27, 1909.

Mr. Ernest Mills, Secretary-Treasurer, Western Federation of Miners, Denver, Colorado:

Dear Sir and Brother—I am in receipt of your favor of the 22d inst stating the action of your convention in making such a grand donation to our organization. I also previously received your check for five thousand dollars which you so kindly telegraphed the New York bank. I assure you that your donation was of great benefit to us coming as it did at a time when it was most needed, and in behalf of the United Hatters of North America I extend to you their heartfelt thanks.

The grand jury of Essex county, New Jersey, which takes in the cities of Orange and Newark, a week ago claimed that on account of the sufferings amongst business men as well as manufacturers and journeymen that it was time for them to investigate the strike situation. In their investigation they only got the manufacturers' side of it, and from statements made to them by the manufacturers, they issued a circular stating that the hatters were ready to return to work without the union label if the organization would allow it. We challenged this statement and notified the grand jury that we would call meetings of our organization in Orange and Newark and have a secret ballot taken in which the question was whether or not the men were ready to return to work at the old wages without the union label, and the vote was to be superintended and counted by a committee representing the grand jury and the press. Our challenge was accepted by the grand jury and the vote was taken with the result that out of nearly four thousand votes cast, only nine voted "yes," indicating that they were ready to return to work without the union label. Our men are as determined as ever to remain out until a full victory is achieved.

To say that we are grateful to you and the members of your organization is only expressing it in a small way, and I assure you that the action taken by your convention will be kindly and greatly remembered for all time by the members of the United Hatters of North America.

Again thanking you, and through you the membership of your organization, I am, respectfully yours,

MARTIN LAWLER, Secretary,

United Hatters of North America

The following communication from Elk Lake Miners' Union was read: No. 188.

Ernest Mills, Western Federation of Miners:

Dear Sir and Brother—At our regular meeting held yesterday, the 25th inst., the advisability of buying a lot and building a hall was discussed and it was ultimately agreed to write to the headquarters asking for a gift of about three hundred dollars. I might say that on account of so much sickness, the treasury is not overstocked and unless we do something to let the mine owners see we are organized and prepared to fight the battle of the

proletariat, we are going to have a hard task. In the event of us getting a hall, and making a home for the members, we will be able to hold them together and thoroughly organize this district, and the only way to do this is to get a place where the members can get together.

In the event of you not being able to grant this, a loan of the same amount would be greatly appreciated. It is impossible to do that which we desire unless we have the finances and the occasion demands that we do get a place to meet.

Hoping you will see to this favorably, we are yours fraternally,
JAMES D. WHALEN,
CHAS. H. LOWTHIAN,
DAN KEARNEY,
ETHELBERT JONES,

No. 66.

To the Officers and Delegates of the Seventeenth Annual Convention, Western Federation of Miners:

Whereas, It has become evident that in education lies our future hope and success; therefore be it

Resolved, That the answer to the question in our ritual, "What is the duty of every member of organized labor?" on page 4, be changed to read as follows:

"The duty of every member of organized labor is to be loyal to the principles of unionism and faithful to the interests of the class to which he belongs, for we hold that there is a class struggle in society and that this struggle is caused by economic conditions."

We affirm the economic conditions of the producer to be that he is exploited of the wealth which he produces, being allowed to retain barely sufficient for his elementary necessities.

We hold that the class struggle will continue until the producer is recognized as the sole master of his product.

We assert that the working class, and it alone, can and must achieve its own emancipation.

We hold that an industrial union and the concerted political action of all wage workers is the only method of attaining this end.

Champion the rights of labor.

Study well the preamble of the Western Federation of Miners, and at all times be prepared to defend it, for it is through education that we shall ultimately triumph."

And would further amend the initiation ceremony by striking out all words on page 11 after "password," and on page 12 down to the words "voting sign," in the third paragraph.

Resolution No. 136, with report of the committee on same, read as follows:

No. 136. Denver, Colo., July 21, 1909.

To the Officers and Delegates of the Seventeenth Annual Convention, Western Federation of Miners:

Dear Sirs and Brothers—No doubt some of you delegates here assembled are quite familiar with the rich mineral resources that abound in northern Ontario. Cobalt alone, produced in 1908, 20,000,000 ounces of silver, value at approximately \$10,000,000. This year, according to statistics, the above amount will be doubled. There are employed in and around the mines, over 3,500 men, and as we only have a membership of 600 members, it is plain to be seen that there is great need for a first class organizer.

There is Elk Lake district, which is about sixty miles northwest of Cobalt, which has about 150 members out of about 800 men employed around there. Gow Gow Ganda, is another camp situated about thirty miles west of Elk Lake, which employs about 800 men, and it is safe to say that there are not more than fifty members in that local. Then we have directly west of there, about 150 miles, the Sudbury district, which comprises several old and new camps—Copper Cliff chiefly—which employs 2,000 men alone. The surrounding camps range from 100 men up. Those latter places are unorganized as yet. The Michipicoten district is another mining center without organization; the same is true of the Sturgeon Lake district, and all that great mining belt lying north of the Georgian Bay and Lake Superior. This latter district is a gold district.

Then south of Cobalt, we have the Lorian district, which claims three producing mines. All this country is in its infancy as yet, barring Copper Cliff, which is about eighteen years in operation, and there is no doubt in my mind but what the above camps will be permanent and as I deem it advisable that the time is ripe for organization, and I wish to say to the incoming president that by giving us a first class, cool headed, competent organizer, that the per capita received from new members will more than recompense the salary of an organizer.

Respectfully submitted,

JAMES D. CLUNEY,
Delegate Cobalt No. 146.

Denver, Colo., July 28, 1909.

We, your committee on organization, would recommend that the communication of Delegate James D. Cluney, of Local No. 146, Cobalt, Ontario, be received and placed on file as it has already been covered by constitutional amendment.
