# And on Earth Peace to Men of Good Will \*

### 'Can't the babies being born

grow up none going to war?"

## Politicians! Listen to the voice of the cannon-fodder-to-be

### MINNEAPOLIS, MINN.

Kids of a ninth-grade church school class here made the Bible text "And a little child shall lead them" come true last week in the struggle for peace. Deciding they wanted Peace for Christ-mas, they composed at the suggestion of their teacher this joint letter to U.S. delegates to the UN and to the Chinese Communist mission at Lake Success:

### HONORABLE Sirs:

Remember us? We are the gen-eration of children who have never known peace. We wish to speak to you

for the millions of boys and girls who do not want to see more war-who long for peace!

Listen! Don't you hear our cries? Can't you forget your grievances and just decide among yourselves to make this a happy world for children? That ought to keep everyone busy for a long time to come. Can't we all stay in our own countries a hundred years, cooperating with each other for a better

Can't we let the babies being born now grow up well cared for, happy

in their families, none going off to war, none being bombed, none starv-ing, none frightened?

Please remember the children while you are deciding whether or not to destroy the world. Please keep talking until you find some way to agree. Our parents always tell us when we quarrel that no one is ever wholly right, and if each one admits he was partly wrong then a right way can be found.

Can't you do the same? Can't each country admit its mistakes and say, "Now w'ell have to make a new start"?

If it were possible, we would like to come to Lake Success to assure the Chinese Communists that the children of America still care for the children of China. We do not want to see them suffer. Neither do we want to see the Korean children undergo any more suffering.

We would send them bread instead of bombs if we could. Some of our toys too. In fact we would share everything with them to make them happier and keep the peace.

If the scientists are right, that no If the scientists are right, that no one can win another war and that there is no real defense, why don't you try something else besides war? Please remember the children every-where. We are praying for you. We are praying for a Christmas present for the whole world, PERMANENT PEEACE for the PEACE.

Published Dec. 10 in the Minneapolis Tribune, the letter has stimulated hun-dreds of Minnesota families to sign. The ninth-graders appealed "to all the children and young people everywhere" either to clip out the letter and send it with signature and address to them at the Hennepin Av. Methodist Church, Minneapolis, or to send similar letters to the UN delegates and the President.

## WAR & PEACE The real meaning of 'national emergency'

(sig

De Ki Na St St St

PRESIDENT Truman last week moved the U.S. a long way toward a war footing and the kind of finance-capital

demanded by the Natl. Assn. of state Manufacturers. Although Russia is the only major power which has had not a single soldier involved in fighting since World War II, his excuse was that "the rulers of the Soviet Union" have created "a great danger" to "our homes, our nation, all the things we believe in." The trimmings were American; the thesis was like the echo of a wellremembered voice that spoke in Ger-many a decade ago.

With unrest growing at home, and moves toward a peaceful settlement breaking out all over Europe and Asia, the President proclaimed a state of national emergency and outlined his policies for war mobilization. He could find no other answer to the collapse of his policies of military containment and diplomacy by military duress. These policies, as Britain's New Statesman & Nation pointed out, "far from creating positions of strength" have created "positions of increasing weakness through-out the western world."

Unable to "negotiate from strength" in the coming four-power conference with Russia, to which Washington was forced to accede by British and French

pressure, Truman still hoped to negotiate from potential strength—from the threat of havoc to be visited on Russia when the U.S. is militarily "ready". Further indicating his Administration's resolve to torpedo any settlement, he sent Secy. Acheson to Brussels to whip the Atlantic allies into acceptance of German rearmament — in the face of Russian warnings that this "will not be tolerated."

SEATS ON THE FENCE: Europe does not want Germany rearmed and the German people themselves "are con-fused and frightened by rearmament" (N.Y. Times, Dec. 17). On the eve of Acheson's departure, the Republican

Party in Congress demanded his ouster or resignation. The N. Y. Times' Ray-mond Daniell reported from London that this "struck a severe blow against American leadership in Europe" and "weakened if not destroyed" any chance of his mission succeeding. Daniell wrote:

wrote: As matters now stand the rather fright-ened countries of Western Europe are more likely to line up for sents on the fence. In England the "emergency" an-nouncement took second place in the press to reports that geese will be cheaper than turkeys this Christmas.

THE FINAL STEP: In the U.S., the Wall St. Journal noted that putting a nation on a war footing is "the final step precedent to fighting." From

nation on a war footing is "the final step precedent to fighting." From Washington GUARDIAN'S John B. Stone outlined some of the expected results of the "emergency": 1. Every boy or 18-25 able to shoulder a rifle will be in the armed services before spring, regardless of his educational plans. The draft age will be lowered early next year. Men 25 to 36 will be set for a uni-versal draft of manpower and if necessary womanpower for production. 2. A group of "rugged individualists" and world cartellists will be the real govern-ment of the U.S. The appointment of -(Continued on Page 3)

Vol. 3, No. 9 **DECEMBER 20, 1950** 178

### Christmas, 1950 By Rev. Clarence Duffy

A MERRY CHRISTMAS and a Happy New Year!

The traditional Christmas wish will have a hollow sound for many in this year of Our Lord, 1950. There will be little cause for merriment or happiness for the young Americans entrapped or maimed for life in Korea—

for their parents, and for the parents of those who will never return from that lonely land.

There will be little cause for merriment or happiness for the young men who are facing the draft, a disrupted, militarized, unnatural life, and the hell of modern warfare. And little cause for the wives, children and sweethearts of these young men to be merry or happy.

It is no merry or happy thing that over all of us, soldier and civilian, hangs the threat, immediate and terrible, of burning havoc and flaming death.

THE world seems to be at the

mercy of a few men who have gene mad—who can think enly in terms of mass murder and obliteration. The power of these men, as well as their greed and pride, has induced this madness. How can these powers of darkness and evil be deposed? From the common people on every side comes the almost despairing Cry: "What can we do?"

Black as the present and future may look, we must not despair; we must not give up the struggle for PEACE. War is not inevitable. We can have peace—we shall have peace—if all the people in the U.S.A. who want peace unite to demand it.

THERE are millions of people of good will in the U.S.A. who want peace. Some are Protestants, some Catholics, some Jews, some agnostics. At present they are confused and divided, intimi-dated and deliberately misinformed by war-mongers of various kinds, including those who control the means of communication

And as a first step, these peace-loving people must be organized and given a voice for the loud expression of their demands. The organizing must be done by men and women who are not afraid to stand up for and defend truth and the right. These men and

women are not wanting either. In the end truth and right must prevail. When the men and women of good will have been brought together—and they will be brought together—we shall reap the promise of the Angels' song at the birth of the Prince of Peace: "Glory to God in the bighest and on earth peace to men of good will."

### Stranger in Blair House

W YORK, N.Y. The President had a ni MEW YORK, N.Y. The President had a nightmare: He had been standing on a shore puiling in a boat with a single passenger, a general with collapsed cop, sun glasses and occn-cob pipe, without smoke. Overhead there was a great beating of wings and trumpet blasts and occasional bugle calls.

was a great beating of wings and trains. The President woke startied and nubled his eyes vigorousis. There at the foot of his bed stood a figure whom he recognized as a One Man Peace Delegation. He carried no placard and made no speech, but it struck the President that he had seen the intruder in rather a mornings through the years. The President was about to summon guards to eject the stranger when He vanished from sight. But later at church there He was again. Somehow He had gotten into the President's own pew. The Presi-hough the optimiserable, for blood dripped from the stranger's hresident could do to keep his thoughts off the boys in Korea. Berising that his day was thor-oughly spoiled, the President left hunging the two was expecially lows. What a relief it would have been froniy I could have punched Him in the nose," the astonished guards heard him mutter as he rushed into the doubles.

White House spokesmen said that more stringent rules will be enforced in the consular and im-migration services. Maurice Becker th

Another's child

Another's child NEW YORK, N. Y. Dear Mr. Truman: If you can become so incensed over an adverse criticism of the quality of your child's voice, what would be your reaction to having your child snatched from your home —as mine was—thrown into a for-eign war, to be starved, frozen and perhaps killed, for the sole and sor-eign war, to be starved, frozen and perhaps killed, for the sole and sor-eign war, to be starved, frozen and perhaps killed, for the sole and sor-eign war, to be starved, frozen and perhaps killed, for the sole and sor-eign war, to be starved, frozen and perhaps killed, for the sole and sor-eign war, to be starved, frozen and perhaps thild is as preclous to me as yours is to you: I DON'T WANT HIM KILLED!

HIM KILLED! Won't you, in the name of all that's decent, order an immendiate cease-fire in Korea, peace with China, and an end to war. BRING MacARTHUR HOME FOR CHREIST-MAS! Florence Van Swearengen

MAS! Florence Van Swearengen Gifts for peace NEW HAVEN, CONN.<sup>3</sup> The Christmas season ap-proaches this year it is more appar-and beyond brute force and diplo-matic negotiations must be brought into action, if we are to achieve the ultimate Peace for which every-our religious leaders are as "the blind leading the blind.<sup>3</sup> To a small group of people known as The Friends or the Quakers, "Re-sist not evil but overcome evil with good" are not mere words out of a Book. In 1947 the Nobel Peace Prize was awarded to them when

This is the first time in my life that I have ever had a greeting card made by a colored person, as far as I know. I am se happy and proud that a letter simply cannot express my feelings. Jack Tedd the Nobel Committee could find no the Nobel Committee could had no single individual whose contribution was as significant and praiseworthy as that made by these simple, sin-cere people. In 1921, these same Quakers won the enduring friend-ship and gratitude of the Russians by going into their country during the great famine and distributing food.

by going into their country during the great famine and distributing food. Some months ago, after sending a \$25,000 gift of streptomycin to the Russian Red Cross, the Quakers suggested that we, as a nation, send concrete gifts as a tangible expres-sion of our insistent declarations that we desire Peace and Friendship with the Russian people. In pro-posing this they are but asking for practical application of a principle familiar to us all, inherent in every religion, philosophy or code of eth-los worthy of consideration. The psychological affect here in our own country as well as the world over of such a spontaneous action would be incalculable. It would be the answer to countless Americans who are asking. "What can I individually do to help win the Peace?" By following the dic-tates of our own hearts, "We the people" could prove to the world (and ourselves) that we are not in-terested primarily in material wealth and power but in "PEACE ON EARTH, GOOD - WILL TO ALL MEN." This may well be our last chance. We suggest that, if you feel im-

MEN." This may well be our last chance. We suggest that, if you feel im-pelled to participate in the carry-ing out of such a plan, you com-municate with the Frienda' Service Committee, 20 South 12th St., Phil-adelphia, Pa.—and enclose a con-tribution, regardless of how small, to be applied toward the securing of gifts to be sent to the Russian and Chinese prople.

## The real meaning of Truman's national emergency proclamation

1948 1949 1950

1 B#SD-

(Continued from Page 1)

Charles E. Wilson, president of Morgan's General Electric Co., as head of the central General Electric Co., as head of the central war production authority recalls that Gen-eral Electric was convicted during World War II of cartel arrangements with German industry which hindered U. S. war produc-tion. Last week the government asked the federal court to halt enforcement of an anti-trust order against GE which it had taken seven years to get. GE was found guilty in Jan., 1949, of fixing prices to get "high, unreasonable and excessive profits." In asking that the order he halted, the government cited the needs of current war production.

Broduction. 3. With a national emergency on the books, the Justice Dept. may find it easier any time it wants to stage new "Palmer Raids" under the "legality" of the McCarran Act. Although the McCarran Act requires a declaration of war, an invasion or a national insurrection to put its concentra-tion camp provisions into effect, some Washington lawyers are uneasy.

Progressives saw in the "emergency" a threat to peace and to civil rights. The Progressive Party's C. B. Baldwin said the President had deepened "the real national emergency." He and Vito Marcantonio, state chairman of the American Labor Party, said again: "The best defense of America is peace with China." The Civil Rights Congress saw in the proclamation a further effort to stamp out civil rights. Rank-and-file progressives handed out peace handbills on the street.

THE PROGRAM: The President did not detail mobilization programs. But according to current blueprints the mobilization will mean, although not necessarily all at once:

• Arms spending (now, \$51,000,000,-000): raised to 70-100 billions a year. (Peak of World War II arms spending was about \$80,000,000,000 in 1944, a little less than half the national income. Today \$70,000,000,000 would be a fourth of the national income, not yet war-level spending.)

• Civilian goods: heavy slashes in production; deterioration through use of substitute materials.

 Manpower controls to freeze workers in war jobs, compel shifts from 'non-essential" industries. Authority to ers freeze wages, ban strikes, suspend the 8-hour day.

• Selective price controls, starting on strategic materials needed by the military.

• Higher taxes on the "little fellow"; probably a national sales tax.

SQUEEZING THE JUICE:...For the people, mobilization "means a standard of living decidedly lower" (Alsop brothers' column). For big business, it

underwrites soaring profits. 1950 financial reports "will make juicy reading," (Journal of Commerce, Nov. 15). Corporation profits in 1950 jumped from an annual rate of \$29,200,-000,000 in the first quarter, to \$35,000,-000,000 in the second, to \$42,000,000,000 in the third. Third-quarter profits after taxes reached an annual rate of \$24,-400,000,000, highest in history, despite

MARK-UPS FOR DEMOCRACY: 1950's MARK-UPS FOR DEMOCRACY: 1950's record profit result from price gouging, particularly since the Korean war. Third-quarter profits of the carpet in-dustry, which raised prices six times this year, were 553.3% over the same period in 1949. In metals and mining, 562.8% higher, reflecting the fact that prices of copper, lead, and zine "all have soared this year" (Wall St. Journal). Coal companies with a profit increase of 188.7%, textile companies with 204.8%, pulp and paper with 115.6%, "reflect in their results" this year's price mark-ups (Wall St. Journal). U.S. Steel's third-quarter profits of

U.S. Steel's third-quarter profits of \$60,000,000 were \$2,000,000 more than its total profits in 1945. Having upped prices four times since the war, steel last month announced a fifth general post-war hike of \$6 a ton. If other firms in the industry follow suit, this price increase will add at least \$500,000,000 to the steel costs of the nation's industries.

Stockholders are "licking their chops over this [profit] feast, and over the hearty dessert of dividends that follow it" (Wall St. Journal). Cash dividends in September were 60% higher than in Sept., 1949, with "a very much sharper [promised] for the full year" (Jour-of Commerce). Total dividend payrise ments for the year may reach a fantastic \$10,000,000,000, topping last year's record of \$7,800,000,000.

GOLD, MILK & WATER: Business journals have no fear that Congress will enact taxes halting what the Wall St. Journal calls "the golden flood of generous dividends." Standard & Poor's Outlook predicts next year's dividend payments will hold "close to this year's level.

The milk-and-water excess profits tax Congress is considering will raise no more than \$3,000,000,000. A real excess profits tax would raise 10 to 12 billions from corporations and still leave them

"If another world IS watching us, Bert, I bet they're having a flippin' good laugh."

with higher profits after taxes than during the war years.

The powerful Business Advisory Council of the Dept. of Commerce, made up of spokesmen for the leading U.S. financial groups, is promoting a national sales tax in place of excess profits tax. Lobbying against the excess profits tax is a committee of 100 busi-nessmen graced by two members of Americans for Democratic Action (purportedly favoring the tax) as their economist and counsel.

HAMBURGER WITH WINGS: The Bureau of Labor Statistics cost-of-liv-ing index (the government admits it underestimates the cost of living) last month reached an all-time high of 176.1. The year 1939 equals 100 on the index. Retail food index today is 213.7— 113.7% higher than in 1939. In November food prices jumped almost 3%, and are now almost 5% above the pre-Korea level. House furnishings are up 5.5%, clothing 3%. By spring women's clothing is expected to be 10% higher, men's suits 15 to 20%, shoes 10%.

The Administration has admitted that the Production Control Act passed last summer makes it "practically im-possible to establish realistic price con-trols on food." Even if the new mobilization program slaps on controls there will be no general rollback, and if food prices are frozen, it will be at present levels. But the Administration's selec-tive controls will be aimed at strategie war materials, not consumer goods.

NATIONAL GUARDIAN

LABOR

### "Emergency" bodes long, hard freeze

THE rise in prices since Korea has reduced the value of the average worker's take-home pay as much as if he had received a \$7.50 a week pay cut. Labor has had no "round" of wage increases since 1948; the three before that did not go to all workers; during the war wages were virtually frozen.

A worker who earned \$50 a week in 1940 would have to earn \$93 a week today to enjoy the same standard of living he did ten years ago. Since Octo-ber he has been paying 20% more in withholding taxes, and big business last week volunteered to cut his wages further.

Dean G. Rowland Collins and Dr. Marcus Nadler, economists of New York University, said of low- and middle-bracket incomes that what cannot be taxed ought to be "sterilized" through the sale of war bonds.

The Journal of Commerce wrote: It is in the longer-run interests of labor ... to take a temporary and moderate drop in living standards directly.

STRIKE OR FREEZE: Faced with the prospect of incomes withheld, frozen or sterilized, workers tried to get at least a last-minute raise before the deadline.

Railroad switchmen in Chicago walked off their jobs. The strike, in-formal and unauthorized by union leaders, spread swiftly to the yards in St. Louis, Baltimore and Washington. For almost two years trainmen have been asking for a 40-hour week at the same pay they have for a 48-hour week. It would mean a 31c hourly raise. Their case has gone through cooling-off periods and examination by Presidential fact-finders. When workers persist-ec, the lines were seized by the Army and rail executives assumed the rank of colonels. They stayed out last week in defiance of three federal court orders.

It was clear that unless they won some concession now, the freeze would catch them. Busmen and trainmen on smaller lines throughout the country tried to beat the deadline, too, with stoppages.

FROZEN OUT: Most of them returned after the President denounced their action as unpatriotic. (Four years ago Truman asked Congress to draft striking railwaymen into the army.) Still, on Sunday evening about 100 switchmen in (Continued on Page 4)

### **Mister Dooley's Chinese Chris'mas cillybration**

Fifty years ago the efforts of the great white powers to bring Western Civilization's blessings to the heathen Chinese at bayonet point were the subject of devastating comment by Martin Dooley, the public-spirited creation of author-editor Finley Peter Dunne. Mr. Dooley's musings for the benefit of his long-suffering bartender friend, Hennessy, seem more apt than ever now that napalm and A-bombs have re-placed the bayonet as Civilization's educational instruments.

"TIS th' business iv Westhren Civilization," Mr. Dooley explained to Hennessy, "to cut up th' belongings iv

asthren Civilization." The lad for the job was Kaiser Wilhelm of Germany. (In those primitive times the idea that America would even contemplate it was unbelievable and laughable.) Here is Mr. Dooley's version of the Kaiser's charge to his soldiers:

"Whin ye get among th' Chinee, raymimber that ye ar-re th' vanguard

iv Christyanity, an' stick ye-er baynet

through ivry hated infidel ye see. "Lave thim undherstand what our Westhren Civilization means, an' prod thim good an' hard. Open their heads with ye-er good German swords to Eu-ropyan culture an' refinement. Spare no man that wears a pigtail."

PEKING was the target in those days, as today.

"Whin they get to the city of Pek-ing," Mr. Dooley noted, "a fine cilly-bration is planned: . . . first day, 10 a.m., prayers be th' allied missionaries; 1 p.m., massacree . . . ; sicond day, 10 a.m., scatthrin' iv remains iv former kings; 11 a.m., disecration iv graves gin'rally; 2 p.m., massacree iv all gin'rals an' coort officials; third day, 12 noon, burnin' iv Peking; foorth day, gran' popular massacree an' division iv territ'ry, the cillybration to close with a rough-and-tumble fight among th' allies.

"I hope the cillybration'll occur on Chris'mas Day," he added. "I'd like to hear th' sojers singin' 'Gawd r-rest ye merry Chinymen' as they punchered thim with a baynit."

BUT deep down inside him, Mr. Dooley didn't see much of a future

for the allies in China. "The Chinese have been on earth a long time," he recalled, "an' I don't

see how we can push so manny iv thim off iv it. Annyway, 'tis a good thing f'r us they ain't Christyans an' haven't

larned properly to sight a gun. ... "If I was a Chinyman, I'd tuck me shirt into me pants, put me braid up in a net, an' go out an' take a fall out iv the invader if it cost me me life. . .

"I see be the pa-apers that they'se four hundred millyons iv thim boys, an' be hivins! 'twuddent surprise me if whin they got through bath' us, they might say to thimsilves: 'Well, here goes f'r a jaunt ar-roun' th' wur-ruld.'"

To this seditious thought, Mr. Doo-

To this seditious thought, Mr. Doo-ley's "pa-three-otic" bartender crony Hennessy growled: "We have the guns an' we'll bate thim yet." "Yes," Mr. Dooley replied, "an' 'twill be like a man who's had his house desthroyed be a cyclone gettin' up an' kiekin' at th' air."

### NATIONAL GUARDIAN

(Continued from Page 3) Toledo warned they would be too ill to work on Monday. At the White House John R. Steelman, Truman's labor trouble-shooter, conferred with rail and union executives

Belatedly Emil Rieve, president of the Textile Workers Union (CIO), dis-covered that textile profits were 189% over 1949 and announced that his union would press for raises. For four years the union had passed up wage raises for its members. Now he pledged a fight in the spring but by then the freeze might be solid.

STATESMANSHIP - 2d ROUND: Last May "labor statesmen" of the United Auto Workers hailed a pattern-making agreement with General Motors that traded adequate wage raises for promised pensions, tied wages far be-hind the cost of living, froze the bar-gain into a five-year contract. The same union statesmen last week prepared to confer in Washington as part-ners with government and auto executives on the wage freeze.

Auto executives grumbled at the first order of the new Economic Stabilization Agency canceling their most recent price rises. UAW officials warned that if ESA meant to cancel their cost-ofliving increase and 4c annual incre-ments promised in the GM pattern, they would regard existing UAW contracts as no longer valid. What new patterns would be drawn was not made clear.

5-2

It seemed unlikely, in any case, that labor would have much of a hand in the drawing. A United Labor Policy Com-mittee, composed of William Green, Phillip Murray, eight other AFL and CIO leaders, two each from the Railway Brotherhoods and the Intl. Assn. of Machinists, was formed but it Machinists, was formed but it seemed a committee to take orders from Neither John L. Lewis nor la-Wilson. independent left-wing is reprebor's sented.

Gen. Wu places blame on U.S. THE General Assembly recessed Fri-day without taking up China's charge of U.S. aggression. Discussion of this was abandoned three weeks ago when the U.S.'s John Foster Dulles asked for 24 hours in which to proper

asked for 24 hours in which to prepare a reply to the indictment delivered by Russia's Vishinsky.

UNITED NATIONS

re's some guy here says he's a PEACE correspondent!"

On Saturday Wu Hsiu-chuan, head of the Peking delegation, told Secy.-Gen. Trygve Lie he would return to Gen. Trygve Lie he would return to China in three days, and called a press conference at Lake Success. With a dignity which had an effect even on the most hostile reporters, Wu said his delegation had come "to strive for peace", but its peace mission had so far failed because the U.S.

ar failed because the U.S. ... has obstinately refused to recognize the existence of the People's Republic of China, and has denied its right of expres-sion and representation on important Far Fastern problems concerning China, [and has continued] wanton intervention in China's internal affairs, [China]... can-not be forcibly denied of a major voice in Asian affairs and of its position in the UN. Only on the basis of a full recogni-tion of this fact may the efforts to solve by, peaceful means the present-day important problems of the world reach any result.

Wu called the cease-fire proposal a trap to tie Korean and Chinese hands while U.S. forces continued their aggression. China would be "willing to try to advise the Chinese volunteers to bring to an early conclusion" their military operations in Korea, but this would be done only if the U.S. got out of Korea and Taiwan (Formosa) and China were admitted to the UN. He thanked the American people for "the friendly welcome" given the delegation. **UNDELIVERED SPEECH.** To reporters he gave a copy of the speech he was never allowed to make to the Assembly.

some of his points were: • "No amount of Mr. Dulles' sophistry could make the 7th Fleet which has in-vaded Taiwan vanish into thin air... The Chinese people are determined to re-cover Taiwan ... and we have the strength to do it." • (10 the U.S. offer to now for domain

to do it." • [Of the U.S. offer to pay for damage done in 61 listed air violations of China's border]: "The sovereignty of the People's Republic of China cannot be bought by your dollars."

your dollars." •"The U.S. has built up a vast network of military bases in the Pacific. . . . Every-

Soil For an age to be.

The grimmest

one can see that this network of bases forms an encirclement of the new China. Gen. MacArthur has openly admitted that [it] is aimed at China and the Soviet Union."

Mission unfulfilled,

Union."

In 1949 South Korea's Syngman Rhee submitted to the U.S. a draft of a "Korean-American alliance" to attack Manchuria and turn over to the joint U.S.-Korean Administration the resources of Manchuria and East China. Citing U.S. sources to document U.S. plans to invade Manchuria, Wu said: "The attack on the mainland of China has already begun."

Wu said: "The attack on the maintained or China has already begun." • [Of Security Council assurances that foreign troops in Korea have no aggressive intentions toward China]: "This is taking the Chinese people for idiots. . . Those countries which wish to assure us that the U.S. troops in Korea would not violate the territory of China are precisely those which maintain that the U.S. The Fieet should stay at the Taiwan Strait and continue its aggression against China. Suppose a 'de-tachment of the armed forces of a country hostile to the U.S. had occupied Hawaii, while another detachment of this same country was attacking the neighbor of the U.S., Mexico. Now the aggressor comes to assure the American people: 'You have nothing to fear. Our troops in Mexico will not commit any aggression against the U.S. is it conceivable that the American people would believe in the assurances given by such an aggressor and its accomplices?"

### Peace move balked by puppet Romulo

"If you ask what shall be done to avert the danger of a third world war, I must say that what you are concocting will not ward off that threat... Your actions are oil on that fire.... The ag-gressive actions of American armed forces against China constitute the crux of the sources of a third world war. These actions must be halted if that threat is to be averted."

SOVIET Foreign Minister Vishinsky Solution for the second quietly shelved when Arab and Asian nations, sincerely concerned to avert the threat of war, organized a peace front to put a brake on the U.S.'s tough policy in the Far East. Differing presumably with Vishinsky's view of the source of the world war threat, they knew that the immediate problem was to get, not Peking, but Washington to discuss a Far East settlement.

The 13 nations led by India's Sir Benegal Rau included the Philippines' Gen. Carlos Romulo, so widely regarded as a U.S. puppet that one diplomat reas a 0.8. puppet that one upformat re-marked last week: "Everybody has con-tempt for him, including the Ameri-cans." Romulo, who could not be ex-cluded since he speaks for an Asian country, virtually wrecked the peace group's efforts.

"EXCUSE ME 40 MINUTES": The group originally produced a resolution calling for a cease-fire in Korea to be

Ohina Monthly Review, Shanghai

Sunday in Prague. Thousands of youngstee This is how they went to work to clean up

Many Rumanian kids spend summer on th w rest homes for their vacations, take

followed by a conference on all Far East questions by Russia, China, the U.S., India, Britain and France. But Romulo insisted, as the U.S. has done, that ac-tion be limited to Korea.

The inspiration of his stand was left beyond doubt by his behavior at the closed-door and supposedly secret meetings of the group. He left meetings for 30 or 40 minutes at a time to consult his masters; more than once asked for a copy of this document or that to show "somebody" outside the room; quit meetings early to report to a news agency what had gone on. The knowledge that Romulo would tell all to the U.S. delegation and the press scared away other nations that wanted to join the peace front.

Romulo insisted that Rau get U.S. approval of the resolution before drafting the final text. Rau, tired and angry, finally decided to talk to the U.S., Britain and France. Afterwards the 13 decided to split their resolution into two: the first called for a cease-fire; the second for talks on Far Eastern problems without specifying the nations to take part. Rau got assurances from the major powers that his second reso-lution would be taken up as soon as the first was passed; but by the week-end it was already clear that the assurances were worthless.

The cease-fire resolution passed when the U.S. decided to support it. Assembly President Entezam of Iran named In-dia's Rau and Canada's Lester Pearson to help him arrange a cease-fire. Since the Peking delegation were not interested in any discussion of Korea alone, they decided to pack their bags and go home.

### S. Korean massacres "horrify" Gls N the frozen devastation of north-

east Korea, U.S. forces were being evacuated from the port of Hungnam: the blacked-out secret of their destina-tion would indicate whether or not an tion would indicate whether or not an effort would be made to hold a Korean beach-head at the Western defense line above Seoul. According to columnist Drew Pearson, U.S. Chief of Staff Gen. Omar Bradley told Attlee's mission in Washington that a small beach-head might be held but "even this was doubt-ful." Pearson quoted Sir William Slim, British general staff chief, as holding British general staff chief, as holding that it was futile even to attempt to maintain a beach-head.

Frank reports of the atrocities com-mitted by Syngman Rhee's forces since the North Korean retreat found their way into the U.S. press. A dispatch from London referring to the atrocities appeared in an early edition of the N.Y. Herald Tribune Dec. 13 but was removed in later editions. It quoted a story by the London Daily Mirror's Korea correspondent: The whole war has become peculiar. At

Eastern Europe builds for peace

"The political temper is not very conductive in most parts of Europe to the development of the capital-istic system as we think of it.... I think that really the most amazing discovery I made was that not a single person, with one exception, believes the Russians are coming."

Dr. Emerson P. Schmidt, direc-tor of economic research of the U.S. Chamber of Commerce.

DR. Schmidt had been on a tour Or Europe, including brief penetration of the "Iron Curtain" (which he found "not nearly as much of a barrier as is commonly assumed.... I walked across and I went across in taxis.") The poli-tical temper that made him despair — that has seized East Europe's people and makes West Europe's people and makes west Europe's increasingly restive to emulate them—is one of gigantic energy, a passion for building things and reviving people. It is also—necessarily—a passion for peace. Here are some reasons why this temper is not conducive to this temper is not conducive to capitalistic development:

**RUMANIA:** Almost medievally backward until five years ago, 71% of the population of this country at the mouth of the Danube lived in areas without any electricity whatever. Total electric power uswhatever. Total electric power us-able at any one time was only 600,000 kw. The new Rumania's electrification plan will more than double electric power by 1955, add 2,000,000 kw. to their power house by 1960

house by 1960. The huge power stations now planned for the area of the Iron Gates (Danube gorge between Yugoslavia and Rumania) in 10 years' time will be producing 8.8 billion kw.-hours a year. For the people this is a promise not only of lighted homes but of more ma-chinery, the basic ingredient for prosperity and independence.

BULGARIA: In 1945, 50 years after electricity came into use, only 784 villages had been electri-

fied. The first five years of social-ist planning have brought light to 1,100 villages. Electricity quickens the general pace: Bulgaria now produces two-and-a-half times what it did in 1939. 1950 coal pro-duction is up 152%, paper produc-tion 215%, over 1947.

HUNGARY: Budapest had the first subway line in Europe—two miles of it, built in 1896. After 49 years of it, built in 1896. After 49 years of the capitalistic system it was still two miles long. Working from plans of the world's most modern subway (in Moscow), so-cialist Hungary has broken ground for the first of two new lines.-five miles to be ready in 1954 five miles, to be ready in 1954.

POLAND: In war-wrecked Warsaw the people are toiling day and night, summer and winter, building neither army camps\_nor super-fortresses but workers' apartments. One 3-story house was built in three days.

Socialist planning makes sense to the people of East Europe. They have had Dr. Schmidt's system and it didn't work. What the new sys-tem means in human terms, the pictures on this page indicate.

(Above) A child takes her icine (Below) Corner of a shoe department in a socialized Macy's in Prague. Stores are well-stocked and crowded.

Construction proceeds apace on the new Danube-Black Sea Canal — part of Rumania's great hydro-electric develop-ment, promising to make port cities out of wretched villages.

lunch time I was invited by the Northum-berland Fusiliers to go pheasand shoot-ing. . . The Ulster Rifles, with whom I spent the afternoon, were cheesed off (dis-gusted) because they had passed through vilages where the whole population is being bumped off by Korean police. And they had seen Korean students being bombed by friendly planes because they wore black tunics like those of the Communists. What-ever the Chinese may or may not do, this has become a dirty, masty business.

**RED SHOES:** The N.Y. Times Dec. 17 published. a Reuters dispatch' from Seoul telling of protests against "the mass executions of Korean political prisoners." The UN Commission "fol-lowing the execution yesterday of 34 civilian prisoners, including two women and two boys" asked Rhee's Home Af-fairs Minister for an explanation. UP reported 800 persons executed in the reported 800 persons executed in the past five days, of whom "many were women, some were children." UP added:

A wave of disgust and anger swept through U.S. and British troops who either have witnessed or heard the firing squads in action in the Scoul area during the last two days. The executions have been going on almost daily since the libera-tion of Scoul in September, U.S. military-authorities were reluctant to interfere be-cause it was doubtful if they had the authority since the executions were being carried out under sentence imposed by Korean courts against Korean citizens. Friday the U.S. and British were hortfied upon seeing truckloads of old men, women, youths and several children timed up be-fore open graves and shot down by South Korean military policemen with rifles and machine guns.

machine guns. Peter Webb, UP correspondent with

Peter Webb, UP correspondent with the British brigade, wrote: White-helmeted military police-who ap-peared to one observer to be American-kept UN troops at a distance while the shots rang out and the mass grave was filled. Official spokesmen denied U.S. or British police had served "as execution guards". [Pfc. Ray Morrison of 10 W. 101st St., N.Y. City], who was warming his hands over a fire, said four MP's stood by

while about 30 Koreans with rifles carried out their grim task. "I heard a volley of shots, but the MP's wouldn't let us go any nearer than 80 yards," he said. [Morrison said he saw the body of a little girl when the bodies were exhumed.] "Her shoe which had failen of," he said. ("was only about that long," Indicating with his fiands the tiny span of a child's foot. On Monday British infantrymen formed a circle around Seoul's, "Execu-tion Hill," where rifle fire was poured on prisoners forced to lie in graves

on prisoners forced to lie in graves (the Nazi technique), and forcibly prevented South Koreans from continu-ing the massacres.

### The actions of Americans turn to peace on Christmas, A.D. 1950

Blessed are the peacemakers: for they shall be called the children of God. MATTHEW 5:9

LL THE CHRISTIAN WORLD pre-A A pared last week to observe the day of the Prince of Peace as it hovered on the brink of an all-consuming war. One question stirred millions: can the peace be saved? Up and down and across the U.S. people of good will were working to save it. Whether they used prayers or petitions their goal was the

Acquaint now thyself with Him and be at peace; thereby good shall come unto thee. JOB 22:21.

At the University of Colorado a Methodist minister of Boulder addressed an audience brought together by a new student organization, the Peace Action Committee. He solemnly announced that "Western civilization is definitely on the way out." It was time, he said, for the world to try Christianity.

Most campuses were astir; typical as a week-end conference at Swarthwas a more College attended by student repmore conege attended by student rep-resentatives from five other colleges in the Philadelphia region who sought an answer to the question: "What can students do to effect an immediate non-military solution to the crisis in the Far East?"

The Lord lift up his countenance upon thee and give thee peace. NUMBERS 6:26.

In Los Angeles 10 young housewives and mothers went to a City Council meeting with a plan: "Get the boys out of Korea by Christmas." Their spokesman said:

"I represent myself and my neighbors, ordinary women who are concerned, wor-ried and heartsick over Korea, Our men

### MAX WERNER

The strength of the 2 armies

T is time to make a realistic appraisal regarding the strength of the fighting armies in Korea. There > WO has become embedded in our minds the impression of an irresistible and innumerable human avalanche of Chinese troops, of countless "horder" overflowing the UN forces. The reality is different. At the beginning of their offensive the Chinese hardly had numerical superiority, if at all.

On Dec. 2, at the peak of the Chinese offensive, Gen. MacArthur himself evaluated the Chinese front echelon "now engaged into attack upon our forces" as somewhat over 250,000 men. Joseph Fromm in U.S. News (Dec. 8) estimates the number of Chinese troops in Korea at about 200,000 to 250,000. Hanson Baldwin wrote in the N.Y. Times of Dec. 6: seems likely that no more than 200.000 to 300,000 Chinese Communists are as yet in Korea." To this force some 80,000 to 100,000 North Korean troops Mr. Baldwin evaluated the UN forces must be

altogether at close to half a million men, Navy and Air personnel and supply troops included, with ground troops of about 300,000. It was un-doubtedly the reliance on this strength and modern equipment that induced Gen. MacArthur to start the last

and young boys are getting massacred there. We don't want another war. We are just sick and tired of war and people be-ing killed, our husbands, brothers and

In Pittsburgh Mrs. Ernest Miller nut two-line classified ad in the Pittsburgh Press:

Will families who have loved ones trapped in Korea call LEhigh 1-9698.

Within three days more than 300 per-sons called her: "They cried in my ears so that I could hardly sleep." All of them wired their congressmen to "bring our boys out of Korea." Mrs. Miller said she received messages from other parents in Michigan Florida New other parents in Michigan, Florida, New and Maryland. York

**Dr. Roscoe T. Foust**, former chaplain of the U.S. Military Academy at West Point, now rector of the Church of the Ascension in New York City, has two sons fighting in Korea. Last week he told a meeting of the New Jersey Com-mittee for Peaceful Alternatives to for Peaceful Alternatives to mittee "stand up and do something for peace before it is too late." The meeting voted to call a statewide conference on Lin-coln's birthday.

Let us therefore follow after the things which make for peace. ROMANS 14:19.

Webster City, Ia., population 8,000, is 72 miles north of Des Moines and likes to call itself "Main Street, U.S.A." Ac-cepting it as a typical Midwest small town, the influential weekly U.S. News sampled opinion there. It found:

ampled opinion there. It found: . . . Plenty of people are quite willing to give up in Korea, permänently. There is not much objection, either, on this grass-roots level, to letting Communist China come luto the United Nations. An attempt at a peace deal, by Pres. Truman, Premier Stalin and other heads of states, is favored... There is a marked political reaction against the Truman administra-tion for what is termed its "mistake" in going into Korea, and for "bungling" after that... The upshot seems to be that people want, most of all, peace. am for peace: but when I speak. they

I am for peace: but when I speak, they are for war. PSALMS 120:7.

From Benzonia, Mich., the United **Press** reported:

The chairman of Benzie County's Selec-tive Service Board refused today to force Americans "to fight, freeze and die in the bills of Korea in a cause that is neither holy nor glorious." He said, "I am opposed to war by Presidential edict."

But in Wolf Point, Mont., two members the Roosevelt County draft of board had to be suspended because they refused to call up any more men unless the atom bomb was dropped in Korea.

Seek peace, and pursue it. **PSALMS 34:14**.

In New York City, 3,500 persons crowded into a Harlem ballroom—only available place after a downtown meet-ing hall canceled the engagement—to hear a first report from U.S. felegates to the Second World Peace Congress in Warsaw. They were told that the World Peace Council set up by dele-gates from 80 countries, representing a vast majority of the world's total population, is the "sixth power" to which the five great powers must pay heed.

The Lord will bless his people with peace. PSALMS 29:11.

The World Council of Churches sent special prayer to its 160 member churches in 44 countries:

Almighty God, our Heavenly Father, guide, we beseech Thee, the nations of the world into the way of justice and truth and establish among them that peace which is the fruit of righteousness,

All around the country churches were holding peace vigils; typical was Rich-mond, Va., where 48 ministers held 24-hour-round-the-clock prayers for "Righteousness and World Peace," and Louisville, Ky., where 13 religious lead-ers conducted an 11-hour prayer for peace.

And he shall speak peace unto the heathen, ZECHARIAH 9:10.

Washington columnist Paul R. Leech wrote last week that congressmen of both parties "are being flooded with mail, telegrams and even long-distance telephone calls" demanding that U.S. troops be withdrawn from Korea. The people ask questions like this, he said:

"Are you fellows going to get our boys out of the Orient? What is Truman up to? We're in a hell of a mess and you people in Washington . . . in London and Paris . . and Lake Success . . . had better get us out of H."

Leech's conclusion: "The Korean war

is an unpopular war now."

Yet, being right in his general as-sessment, MacArthur has undoubtedly overestimated Chinese equipment. In due course the Chinese Army can adapt modern offensive weapons, can become a modern army in a technical sense, too. But it has won this campaign with very few modern offensive weapons, and with a fire-power as a whole far below that of the UN forces. Comparing the strength of the two armies, one can see clearly that the Chinese won not because of equality in modern weapons, but in spite of their inferior armament. Their trump cards in the campaign were not heavy weapons but combat skill and strategic planning. The London Economist said:

The spectacle of the heavily-armed and mechanized forces of two world pow-ers, with undisputed command of air and sea, retreating before a mass of lightly-equipped foot soldiers is one that meither Asia nor Europe will forget.

THE HUMAN FACTOR: This spec-tacle has revealed the basic errors of Western military doctrine which gauges military strength by fire-power, mechanized equipment and destruc-

In North Korea the Chinese won by better strategic deployment and by shrewdly exploiting the errors of their adversaries. This has been done by troops which, as the current issue of

## fight ouster verdict

LAST SPRING eight New York City school teachers, all of them executive members of Local 555 of the Teach-ers Union of the United Public Workers, all of them Jewish, were called before Superintendent of Schools William Jan-sen and asked: "Are you a member of the Communist Party?

All considered the question a violation of academic freedom and of the civil service code which prohibits in-quiry into political affiliations. They refused to answer. On May 3 they were suspended without pay for "insubor-dination" and "conduct unbecoming a teacher." They were tried by an outside examiner, Theodore Kiendl, "borrowed" from a J. P. Morgan law firm at a salary of \$1,500 a month.

Behind the cases of the eight were long-simmering grievances of New York teachers: under-staffing, over-crowd-ing, under-payment, obsolete equip-ment, decaying buildings, biased text-books, open anti-Semitism by the Board of Education.

"DANGEROUS POWERS": Last week lawyer Kiendl reached his verdict on the eight: guilty as charged. His recommen-dation: that they be "dismissed forthwith." But forthwith was a little too soon. It was up to the Board of Educa-tion next to accept the recommendation, modify it or reject it. From there the teachers could appeal to the state Commissioner of Education, from there to the courts. Appeal they would; said a Teachers Union statement:

The decision gives the Superintendent sweeping and dangcrous powers and de-stroys academic freedom and the tezchers' tenure laws. It must and will be fought before the Board of Education, and if necessary to the highest court of the land.

Tribune, Australia Whaddya mean, no Red plot on the wharves-the assignment is to find

### Ivan says it with vodka & woolies

ELEVEN weeks ago F/Lt. J. W. Driver Eleven weeks ago F/Lt. J. w. Driver of the Royal Air Force made a forced landing in his jet Meteor in Eastern Germany. Last week his wife and reporters eager for sensations about his detention by the Russians met him on his return to London.

Driver said he was taken to various places but not held under lock On his last morning, he told the Daily Express, Russian officers burst beaming into his room with bottles of vodka and drank his health in a friendly farewell. Driver said:

×

"The Russians accepted my explanation of a forced landing and the interrogation was very short. They supplied underclothes—in fact, I have a rather natty line in purple winfer woolles which they gave me." Commented the Express:

As long as it is possible for spontaneous good feelings to exist between Russians and Englishmen on the lower rungs of the lad-der, all hope should not be lost of a final and peaceful settlement at the top.

Action, Paris "I doubt if we can liberate China by Christmas."

### offensive.

Thus initially there was a kind of equilibrium between the two armies. It was broken in the battle. The shift in the relationship of forces was achieved in fighting.

SKILL & PLANNING: The historic truth is that the campaign in North Korea was not won by sheer weight of Chinese numbers. Gen. MacArthur

binself gave very high praise to the military quality of the Chinese enemy: "His forces are thoroughly equipped with modern and efficient weapons. His is a modern ground force in every sense of the term and capable of comparison with that of any other nation."

### Pots and pocketbooks

### **By Charlotte Parks**

APPLES and cranberries are A cheaper than they have been in years, and nothing is been in years, and nothing is quite so soul-warming and stomach-comforting on a cold day as a lush, steaming-bot boiled pudding with lovely rich sauce. (Or maybe how about hard sauce with a touch of rum and a grating of nutmeg? Plain, old-fashioned vanilla is very good, too.) No oven is needed and it's a good com-pany dish because longer cook-ing doesn't spoil it. It's parti-cularly good after a skimpy dinner and is easy to digest, though it sounds rich. Inthough it sounds rich. In-

THE CIRCLE & THE CROSS: Suet is another name for beef Suet is another name for beef kidney fat, which is especially rich in vitamins and much cheaper than lard. Roll the paste about  $\frac{1}{2}$  inch thick on waxed paper (to save work), line a pudding mould (a coffee tin with its tight cover will do nicely), put in sugar, then the sliced conder of stewed cransliced apples or stewed cran-berries. Draw the circle of

pudding container. Don't let the water stop boiling. If you need to replenish, pour boiling water from the kettle. Cook one hour. Take off cover immediately you stop cooking. If you have a glass stop or pottery-covered dish, serve it directly from the container.

Lightning Pudding Sauce

1 c water ½ c sugar 1 tsp. cornstarch juice 1 lemon or

Juice 1 lemon or orange Jams and jellies make deli-cious fillings for roly polies and canned fruits come in handy, too. It's a good idea to make a couple at a time and stick one back in the refigurent or an an back in the refrigerator or on the back window and cook it in a week's time.

Hard Sauce

3/2 c butter or margarine 1 c powdered sugar 1/2 tsp. vanilia or 3 tbsp. wine Cream the butter and sugar together thoroughly. Add flav-oring and pile in swirls on flat dish. A dash of nutmeg or cinnamon is a nice touch.

### SORRY!

Our \$1 a dozen Chinese Woodcut holiday cards ran out over the last weekend, so those of you who ordered late will be getting your checks back in the next week or so. If you're interested in how the venture went, we printed and sold 1,250 dozen. We still have a supply of bulk woodcut cards (\$2 a hundred with envelopes) which are suitable for many other occasions throughout the year or as unique note paper.

First come, first served.

presents it as only part of a

whole fascinating, involved pro-

cess of social living, set in mo-tion by the rise of capitalism

during the Renaissance. Con-flict between England and Spain; conflict within England

### BOOKS FOR PROGRESS

### 'The Hidden Heritage'

By Edwin Berry Bergum Professor of English Literature, New York University

JOHN HOWARD LAWSON is known to movie goers for the scripts of some of the best films produced during the last war (Sahara, Blockade, Action in the North Atlantic). His Proeessional years ago started a new movement in the American theater and was followed by such memorable plays as Success Story and Marching Song. Lawson's book on playwriting established him as a critic of both play and film. He is one of the Hollywood Ten now in tail for their defense of freedom of speech in the world of literature.

The wealth of knowledge of art and life bespoken by such a record has now been turned to good purpose in The Hidden Heritage. The forthrightness and buoyant personality that magnetizes whoever has heard Lawson speak has now been applied to a subject which, in other hands, has proved bor-ing for its scholasticism and frequent viciousness of social viewpoint—the history of western culture. But the appeal of Lawson's book comes as much from the freshness of approach as from the vividness of the story telling.

PEOPLE'S **HISTORY:** The reading public during this cen-tury has been fed up with similar grandiose projects. First Oswald Spengler callously pre-dicted the decline of the west. More recently, as the decline has really thickened. Arnold Toynbee concealed in a maze of learning his recipe for re-covery: moral values that are never defined for use. Both these writers reflect the attithese writers reflect the attitudes of the prosperous middle class. If Lawson is neither cynical nor fatuously complacent, if he recovers that robust feelso characteristic of ing the Renaissance (to which, in fact, this first volume in his series is mostly devoted), it is that he sees history from the point of

Send for

view of the masses of the people. Common men, as Lawson sees

the picture, have always de-manded the good life for them-selves, have often lost out in the struggle; but they have never admitted that they have been beaten. Their demands break out again later and, as passes, have been to an greater degree achieved. time ever

History has become d

today.

THEY NEVER FORGET: The THEY NEVER FORGET: The revolt of the Albigenses may have been ruthlessly sup-pressed. John Huss may have been burned at the stake in Bohemia. The Levellers may have seen their protest more subtly dissipated by Cromwell. But the struggle went on be-cause the common people, as represented by these vanguard cape their bondage. This is the idea that runs

through Lawson's book, but he
